Lebanon Incursion Reported

Golan Fighting Continues With Air, Artillery Action

Israel said today its planes had attacked Syrian positions around strategic Mount Rermon in the Golan Heights and chased off a Syrian MiG-21 interceptor that crossed into Israeli-held territory.

"Air force planes today attacked military targets in the Hermon region at 2:45 p.m.," a communique from the military command said. "All Israeli planes returned

The air strikes followed intermittent shelling around the mountain and in the southern sector of the Golan front during

In Damascus Syria said that Syrian positions on Mount Hermon and troops of both sides exchanged artillery and tank fire

in various par' of the front.
"At noon today, a pair of enemy planes attempted to attack one of our positions on Mount Hermon from a high altitude," a communique said

"They were confronted by our air defense system, which pre-veuted them from realizing their objective," the communique said. The communique said ground fighting on Mount Hermon, which continued sporadically all night Saturday and today, was

Troops in Lebanon The Associated Press quoted witnesses in Marjayoun, in southern Lebanon, as saying that an Israell force moved onto the Lebanese side of Mount Hermon

and occupied the Shahar billtop before dawn today. The Israelis were apparently trying to gain an edge over the Syrians in fight-ing in the mountain range. [Mount Hermon runs partly in Syrian territory, under Israeli occupation since 1967, and partly in Lebanon, which has remained

clear of Syrian-Israell clashes. Witness said the Lebanese Army fired several rounds of mortar shells on Shahar at midday, but the Israelis old not

Lebanese officials were not immediately available for comment.

The Israeli command said the Syrian MiG penetrated Israellbeld territory near Mount Hermon before the Israeli air strikes, "It was chased by Esraeli planes

ATLANTA, April 21 (NTT),-Secretary of State Henry Kissinger yesterday declared "the policy of the good partner" to be the new U.S. approach to Latin American and Caribbean nations, Addressing the general assembly of the 23-member Organization of American States, Mr. Eissinger

said: "We convene as equals." He hailed the "new dialogue" that he said had begun among forcign ministers of the hemusphere since he became secretary of state seven months ago. He pledged closer consultation with the OAS members on monetary and trade issues and in international conferences called to deal with food shortages and popula-

tion cootrol. "We jointly proclaim our

operative actions the policy of the good partner," he said.

To an apparent effort to distinguish this from the "good neighbor' policy proclaimed by President Franklin D. Rooserclt more than three decades ago. Mr.

Kissinger said: "With our great material and technical resources, we were often tempted to do for others what we thought was beat for them. That attitude no longer shapes our relationship.

"We in the United States have come to recognize that a revolution has taken place in Laun America, Industrialization and modern communication have transformed economic and societ life. This is why our new dialogue is... a necessity for us all." But while stressing "our special

relationship." Mr. Kissinger warned that it could not "mean the formation of an exclusive bloc." and added: "The world has al-read; seen enough of pressure groups, exclusive spheres and discriminatory arrangements."

In contrast to other speakers. he did not mention Cuba in discussing hemispheric coopera-

UN Leader Presses Wealthy To Back Special Aid Fund

By Kathleen Telisch

UNITED NATIONS, N.Y., April NYT . - Secretary - General Kurt Waldheim is pressing the wealthy countries-the oil producers and the industrial powers to set up a special fund to rescue the countries most affected by scaring oil prices.

He is telling potential donors privately that a number of countries face a "life-death struggle" in the next few months and that they cannot wait for the kind of long-term reforms that are being discussed in the special General Assembly session on raw materials and development.

The World Bank has said that 12 countries are particularly threatened and noted that they hare a combined population of more than one billion. The countries are Bangladesh, Bollyla, Ethiopia, India, Kenya, Mali. Pakistan, Sri Lanka Sudan. Tanzania, Uganda and Zaire.

Mr. Waldheim, during an interview appraising the progress of the assembly, stressed the need for fast action on the special fund. He is optimistic about prospects that the UN membership will agree on a set of guidelines to establish what the underdeveloped countries call "a new international economic order." He is hopeful that the members will come up with a program to put into effect some officials in the Foreign Ministry said the government was relieved that the Nixon administration had dropped its campaign for the

Roughly half were older than student age, apparently faculty and staff. Lenin lapel pins and Komsomol, or Young Communist

League, badges were prominent among the younger persons.

Although a question-and-answer session was on the schedule. Sen, Kennedy startled his listeners when he announced that he wanted to ask some questions. as he liked to do on American

campusea. He first asked the audience to rate the importance of four major Soviet events—the first manned space flight, victory in World War II, Soviet economic achlevements, and the victory at the 1972 Olympic Games, Consternation and silence greeted his ques-

tion, as well as confusion about what he wanted. After a couple of minutes and false start, the university rector interceded to explain the procedure listing the choices in a different order—the war, the economy, space and the Olympics. When the polling eventually took place, the war and economy were far ahead.

"I think I understand your mood," Scn. Kennedy joked.
After his inquiry about defense spending, he polled the audience on where they thought more gov-ernment funds should be spens. The audience rated health first on his list, then education, housing. pollution, and lowest, comhatting alcoholism or drug ad-diction.

Asthmatics Told To Blow a Horn

PARIS, April 21 (AP) .- Young people suffering from asthma can improve their condition by blowing a horn, an American allergist said here yesterday.

Prof. Marks, director of the Miami Pediatric Allergy Clinic, said research showed that some asthmatic children who could hold a note for only five seconds. were able to play well after a few months of exercise. Prof. Marks was addressing the American Col-

lege of Allergists meeting here. Prof. Marks also suggested that young asthmatics could improve their condition by swimming regShift From Last Year's Views

Many Foreign Leaders Said To Expect Ouster of Nixon

(Continued from Page 1) long feared that, without Mr. Ni::on, American support would quickly dissipate, leading to 2

new invasion from the North. Recently, the government-controlled press was permitted to report more thoroughly on Watergate-related developments, a sign that the South Vicinamese lead-

ers were preparing the public. Similarly, the hard-pressed Cambodian government was found to fear that Mr. Nixon's departure might signal the end of American concern for the struggle against the Communist-

In another country in a tense situation, Egypt. President Anwar Sadat has said publicly that "it would be a real tragedy for our area and for the world" if Mr. Nixon were forced out of office.

The Egyptians have asserted that under Mr. Nixon the United States has made a fundamental shift toward a more even-handed policy in the Middle East. A change in the White House would cause concern in Cairo, even with Mr. Kis-inger staying on.

The secretary of state was reported to have told Egyptian For-eign Minister Ismail Fahmy, in Washington talks, that even if Mr. Nixon is impeached, he would he able to survive trial in the Senate. Therefore. Mr. Kissinger was said to have advised the Egyptians, they should not worry about the political situation.

Effects Disclaimed

The secretary has told newsmen privately that he is confident that Mr. Nixon will remain in office and that, in any case, impeachment discussions have no direct hearing on his activities.

Nonetheless the President's political difficulties have had perceptible impact on the conduct of foreign policy. Some State Department officials have said that they believe that his decision to hold several meetings while in Paris for President George; Pompldou's funeral two weeks ago was motivated in part by political considerations,

On the way home from Paris. Gen, Alexander Haig jr., the White House chief of staff, said that "it was very evident that European leaders and world leaders with whom the President met continue to look to the Unlt-ed States and President Nixon as an essential factor in the realization of the continuing efforts to develop a structure for a stable international environment."

With a summit meeting planned for Moscow in June, the White House has emphasized the relationship that Mr. Nixon has hullt with Leonid Brezhnev, the Soviet Communist leader.

However, a Russian said at the United Nations the other day that he was concerned that Mr. Nixon might take an overly tough stance in Moscow to prove that fort to get a strategic-arms accord.

The President's troubles have caused some problems for the Japanese, who seem to assume that he will not last out his term, which runs to January, 1967.

Impeachment would probably he viewed as a loss of face for the United States, but sources in Tokyo agree that it would not have much permanent impact on Japanese-Americar tles, which have been loosened in recent years by Japan's gradual shift from virtually total dependence on the United States and toward more balanced relations with China, Europe and the Soviet

Union In Africa, where President Nixon's problems have not aroused much concern or interest, and where local problems predoml-nate, his fate seems to he considered of no particular importance. In India, officials have taken a relaxed attitude, with a Foreign Ministry official asserting: "Nixon is not the United States. If he goes, you may get a better president."

The survey found that, with few exceptions, the Watergate affair and the process of impeach-

End to Keynesian Approach

Some Experts Say U.S. in Economy of Scarcity

By Paul E. Steiger WASHINGTON April 21,-Businessmen and farmers scramble for short supplies of steel, chemicals and fertilizer. Unemployment rises. The nation's output of goods and servi : takes it sharpest tumble in 16 years. Inflation continues its seemingly unstoppable march.

To more and more Americans, the once invincible U.S. economy is beginning to look increasingly like a pitiful, Itelpless giant. no longer able to keep its subjects fortified with their accustomed unending supplies of toilet paper. tomato paste and tennis halla.

What is going wrong? Part of the answer is that the national economy is going through one of its periodic downward cycles, exacerbated this lir: by the complication of the recent five-month Arah oil embargo. But beyond that, some econ-

omists suggest, the nation's economic life also appears to be entering a new phase, one in which the economics of pleuty may have to be superseded-at least for a while-by the economics of scarcity, In the 1930s, British economist

John Maynard Keynes touched off a revolution in economic policy making by demonstrating that, left to their own devices, a nation's people often saved too much and spent too little of their carnings to keep all its farms, factories and workers busy.

Therefore, Mr. Keynes showed. by borrowing some of the public's excess savings—that is, by run-ning budget deficits—governments could increase their spending to create jobs and provide new services for the public without putting unduc strain on the

Or, if they chose, governments could simply cut taxes, thereby

transferring new spending power to consumers and increasing purchases and employment that way, Iutroduced in the administration of Franklin D. Roosevelt, these principles have found in-

creasing acceptance in the United States. They have been wide-ly credited with fostering prosperity and dampening recessions in the years since World War II. Now, bowever, there are signs that the conditions Mr. Keynes observed may have changed. Savings, which were excessive in Mr. Keynes's day, now may not be fully adequate to finance the

nation's investment needs, some

economists say. Moreover, the economy is currently suffering from a series of sitocks that have had ferocious impact on a few sectors—energy, autos and agriculture, for ex-ample—while leaving others largely untouched. The Keynesian prescriptions, which operate on the economy as a whole, are the wrong medicine for this kind of disease, contends Donald Ratajczak, Massachusetts Institute of Technology-trained economist

now at Georgia State University. What all this adds up to he and other economists conclude, is the need for slower growth of consumer spending and tighter control over the federal budget than most Americans—and most American political leaders-have grown accustomed to: the economics of scarcity.

This need not be terribly painful these economists say. Barry Bosworth, an economist at the nonprofit Breokings Instituhere, estimates that by devoting an extra 1 percent of the nation's total yearly oulput investment the nation cau meet its requirements for new energy supplies and new machinduring the next decade. Even so, such adjustments are

likely to prove unpalatable to

many Americans, particularly those facing unemployment. But if the new conditions are not recognized and the necessary restraints imposed, a number of economists warn, the result is likely to be accelerating inflation

and the need for a far more drastic readjustment later. To Herbert Stein the acid-tongued chairman of President Nixon's Council of Economic adtisers, it is time that Americans learned that they cannot be shielded from all economic strains and that long-run prosperity may require patience in the face of short-run problems. Walter Heller, who was President John Kennedy's top eco-

nomic adviser, and Arthur Okun, who served Lyndon Johnson in a similar capacity, have called for an immediate tax cut. Meanwhile, such other prominent Democratic economists as John Kenneth Galbraith and Gardner Ackley have urged fiscal

But those wito believe there has been a sharp change in economic realities are beginning to amass arguments and evi-dence to buttress their case. In the 1960s, they note, numerous factors combined to make it possible for U.S. citizens to enjoy all-out economic boom

without excessive inflation or strain on domestic productive capacity. Many of these factors have now disappeared, leaving the economy much more vulnerable to shortages and ballooning prices. For example: • In the 1960s, an overvalued dollar enabled American conaumers to obtain cheap supplies of cars and cameras, oil and cop-

per from abroad. Devaluation of the dollar in the 1970s has end-

ed that. Where the supplies are

still available, they are no longer

During past American eco-

frequently were undergoing recession. As a result, U.S. manufacturers were able to import large quantities of such materials as steel at bargain prices because foreign producers had nowhere else to sell it. Now, foreign business cycles have moved into phase with U.S. conditions, and when Americans are short of such materials there are no ready supplies ahroad.

The sell-off of the once-huge U.S. grain stockpiles remov-ed a cushion that formerly prevented big swings in the prices of food products in the United States. Now, if a crop is bad, millers and animal feeders here and abroad have to fight among themselves for the remaining supply, and prices can double in a matter of months. The option of releasing an extra sup-ply from the stockpile is gonc.

In this environment, inflation has become a far more intractable and dangerous problem, and the risks of excessive stimulation of the economy have become cor-respondingly greater, many eco-

nomists believe.

As the pace of inflation increases, the risk mounts that it will accelerate. Businessmen and workers atart racing to increase prices and wages. Consumers become less willing to save. be-cause, even at high interest rates, they fear their savings will de-cline in value. So instead they pour more of their earnings into purchases, thereby driving up orices further.

Mohammed Ayub Khan, 66, Headed Pakistan 11 Years

Field Marshal Mohammed Ayub 1956 to 1969, died of a heart attack Friday at his home near Islamabad. He was 66, and had been living in quiet retirement since relinquishing power five years ago.

He was buried today in his ancestral village of Rehama, in the foothills of the Himalayas,

Tall and dapper, a product of the British Royal Military Academy at Sanohurst and of army tradition, Marchal Ayub brought a paternalistic but toughly efficient rule and a measure of stability to turbulent Pakistan during his 11-year presidency, which began and ended with bloodless military take-overs.

His pollucal encines considered him a despot. Under his brand of democracy-"a democracy the people can understand," as he was fond of saying-he did not submit his presidenry to a direct vote and he crippled his political opposition. He kept the right to censor the press and to promulgate laws at will.

He was, nonetheless, relatively popular for most of his tenure. He instituted price controls, laod reforms and domestic policles that strengthened and stabilizeri a shaky economy. He maintained martial law for four of his years in office and kept the army loyal with pay raises.

In foreign affairs, Marshal Ayuh moved Pakutan away from the Western camp aud an almost exclusive rellance on U.S. aid, and turned instead toward the Third

World, including China. A military man most of his life, Marshol Ayuh was the first commander in chief of the Pakistani Army after the country won its independence in the British partition of India in 1947.

On Oct, 27, 1953, he assumed the presidency after deposing Iskander Mirza.

Declaring that his mission was "to bring the country back to sanity" after a series of unstable governments, he set up a milltary dictatorship, He ended martial law in 1962 and promulgated a constitution with sweeping presidential powers.

There were elections in 1960 and 1965 in which Pakistaous chose 90,000 local officials who. as electors, gave him an over-whelming vote of confldence and two successive five-year terms. In 1965, Pakistan and India fought a brief war over Kashmir. Although 10,000 lives were lost, the fighting was inconclusive.

Fritz von Allmen

KLEINE SCHEIDEGG, Switzerland. April 21 (Reuters),— Fritz von Allmen, 55, adviser and host to countless alpinists who attempted to climb the formidable Eiger Mountain here, died Friday in Bern after a short illness, relatives said today, Mr. von Allmen, 55, a local

Italy Rail Blast; Disaster Averted

FLORENCE, April 21 (Reuters).—An automatic cut-out de-vice averted a disaster early to-day when an explosion severely damaged a stretch of railroad track near here a few minutes before the Bologna-Florence express was due to pass.

Officials said the device automatically triggered an alarm which set all signals at red as soon as the track's electric power line was interrupted.

About 20 meters of the track

was damaged in the blast, which the police said was caused by a dynamite charge placed deliber-ately on the line. The express train halted at a signal a short distance from the crater caused by the explosion.

officials said. There was no im-

hotel proprietor, was an expert on the sheer north wall of the 13,036-foot mountain, although he never scaled it himself.

Mohammed Ayub Khan

John Pelenyi

NEW YORK, April 21 (NYT). John Pelenyi, 39, former Hungarian minister plenipotentlary to the United States and professor emeritus of political science at Dartmouth College, died Friday at his home in Hanover, N.H.

Mr. Pelenyi had a long career in the diplomatic service of the Austro-Hungarian Empire and then of his native Hungary. He left his post as envoy extraordinary and minister plenipotentiary to the United States, Cuha and Mexico in November, 1940, to protest Hungary's joining the Axis powers in World War II.

Len Marrison

NEW YORK, April 21 (NYT). -Leo Morrison, 75, who had been a Hollywood press agent since the early 1920s, died Friday at a hospital here of complications following aurgery. He began his work with D.W. Griffith and Adolph Zukor, and over the years represented Jean Harlow, Adolphe Menjou. Leo Carillo. Randolph Scott, Sir Cedric Hardwicke, Fatty Arbuckle, Buster Keaton and Francis X. Bushman.

67 Defendants Lose

Plea in Chilean Trial

SANTIAGO, Chile, April 21 (NYT).—A military court Priday rejected a defense contention that it had no authority to try 57 air force men and 10 civilians charged with sedition and aiding Marxist parties.

The defense attorneys maintained that the military courts were empowered to try individuals for crimes committed only after state of siege had been put into effect. A state of slege has existed in Chile since the military coup that overthrew the Marxist coalition government Scpt. 11.but all 67 defendants are charged with acts commutted months

Chaban Wants Improved Ties With U.S. and West Germany

PARIS, April 21 (UPI).-Presidential candidate Jacques Chahen-Delmas has promised to try to improve France's relations with both the United States and

Germany. The candidate of the Gaullist party said in an interview yesterday with the Anglo-American press corps. "I will do all I can to raise the barriers" that have

3-Party Talks In Belgium on Coalition Fail

BRUSSELS. April 21 (Reuters). -Beigium appeared heading for a minority government today after negotiations to form a coalition ended in failure yesterday morn-

Premier-Designate Leo Tinnemans admitted defeat following 23 hours of talks between his Christian Social party, the rightist Liberals and the country's two federalist parties.

Sources said that Mr. Tindemans, who has been trying to form an admioistration for the last month, would now try to form a cabinct with the Liberals. They sald that any such administration was likely to be short-lived because the two parties won only 102 seats in the 212member National Assembly in the March 10 elections.

The Christian Socialists, the country's biggest political party, hoped that the Socialists would join the government with their 59

seats at a later date. A Christian Socialist-Liberal Socialist calinet would be a recreation of the last administration, which collapsed in January after Iran pulled out of a project to build an oil refinery in castern Belglum,

The Socialists, who were Mr. Tindemans's first choice as a coalition partner, still feel birter toward their ex-partners.

The Socialista blame them-

especially the Liberals-for torpedoing the refinery deal because they did not want the government to become involved in a project which they said should be left to private enterprise.

The Socialists negotiated with the Christian Socialists for three weeks after King Baudouin named Mr. Tindemans premier-designate before pulling out of the talks.

The negotiations fell through

after the country's two federalist parties—the French-language Rassemblement Wallon and the Flemish-language Volksunle could not agree on what to do about the growth of Brussels.

The Volksunle was against an expansion of the capital, a large-French-speaking enclave on the southern edge of Flemish territory, while the French speakers wanted Brussels to be allow-

Leftist Merger Of 4 Parties Set in Norway

OSLO, April 21 (Reuters).-Norway's four leftist parties -including the Communist party-today decided to oissolve their organization and form a new radical party which will challenge Premier Trygve Bratteli's Social Democratir party at the next gengra! elections.

It was believed to be the first case of any West European Communist party opting to discontinue its activities and join other groupings to the left. The party has been active in orway for 50 years.

A resolution, uanimously adopted by nelegates from the Communist party the Socialist Paople's party. Independent Labor and Independent Socialists, said a runity congress' would be held by March 15.

clouded relations between Paris

and Washington. But Mr. Chaban-Delmas also said that he was for "independence" and against prior consultations between Europe and Washington before Europe makes te-

Discussing relations with Bonn, he said, "French-German relations must go back to where they were when Ithe late Chancellor Konrad] Adenauer and [the late Charles] de Gaulle signed the Franco-German friendship agree-

2 Other Candidates

The two other major can-didates, Gaullist Pinance Minister Valery Giscard d'Estaing and Socialist François Mitterrand, also have "independence" planks in their platforms, Public-opinion polls say 63 percent of the French want to keep a distance from the superpowers.

A weekend poll for Le Point magnzine showed that Mr. Chaban-Delmas was running hehind Mr. Giscard d'Estaing in the May 5 election, 23 percent to 25 per-cent. One of the two will represent the Gaullist center-right in a probable May 19 runoff against Mr. Mitterrand, who got 43 percent in the opinion poll.

Former Commerce Minister Jean Royer placed fourth, with a percent.

An earlier poll published April 9 in Le Point gave Mr. Mitter-rand 40 percent, indicating some voters have awing to the left since then.

Poll on Runoffs

In another aurvey, voters were asked to choose between candidates in two possible runoffs-Mr. Mitterrand and Mr. Giscard d'Estaing and Mr. Mitterrand and Mr. Chaban-Delmas.

The results in the first case were Mr. Giscard d'Estaing, 41 percent; Mr. Mitterrand, 39, and 20 percent undecided. In the second. It was Mr. Chaban-Delmas, 43. Mr. Mitterrand, 36, and 21 percent undecided.

In a television speech yesterday Mr. Mitterrand said, "Some will say all candidates have the same promises of economic reform." Referring first to Mr. Giscard d'Estaing and then to Mr. Chaban-Delmas, he said, "How can one bring progress when he relies on the privileged" and "How can the other accomplish reforms when he refused to make reforms after 10 years" in Gaullist governments.

Moslems Stage Ethiopia March To Protest Bias

ADDIS ABABA, Ethiopia, April 21 (UPI).-More than 30,000 Moslems, radical workers and students staged Ethlopia's biggest protest yesterday, the police said, a five-hour march against religrous discrimination.

It marked the first time the Moslem minority in this mostly Christian kingdom took part as a group in the more than two months of unrest that has shaken Ethlopia.
The Moslems—10 million in a

population of 26 million-protested discrimination by the government and the Ethiopian Orthodox Church. They also demanded full civil rights and opportunities. government-financed Moslem schools and courts. Meanwhile, yesterday, Premier Endalkatchew Makonnen denied

foreign press reports that he had been summoned to address the armed forces and the police. The reports quoted military sources as saying on Thursday that the premier had been summoned to a meeting that day in Addis Ababa. But the premier's office said he had taken the initiative himself to create a dialogue with the

security forces to explain the gov-ernment's policy.

Plea Made for 2 In Turkish Case

ANKARA. April 21 (AP).-In an appeals hearing yesterday, the defense attorney asked that two of three Americans sentenced to life imprisonment on a drug conviction be acquitted.

The attorney, Faruk Frem, asked freedom for Joann McDaniel, 29, of Coos Bay. Ore., and Katherine Zenz, 28, of Lancaster, Wis. The third, Robert Hubbard, 23, of San Diego, Calif., has pleaded guilty to smuggling charges. The court said it would rule on the defense motion on Friday.

The attorney quoted expert testimony that the smoggled hashish was so well hidden in their car that it could escape the notice of any driver or passenger who had no prior knowledge of it.

21 Youths Seize Statue of Liberty

NEW YORK, April 21 (AP).—Twenty-one college students railing themselves the Attica Brigade left the Statue of Liberty early yesterday morning after occupying the landmark for 14 hours in a demonstration against President Nixon.

A spokesman said the group, which claims chapters at about 50 colleges and universities around the country, said its members wanted to publicize a planned anti-Nixon march on Washington Saturday. Assistant U.S. attorney Thomas Cahlll said. There are no charges, criminal or civil," against the 14 men and seven women, since they left the statue voluntarily.

The group took its name in memory of 43 persons who died in a four-day revolt at Attica State Prison near Buffalo, N.Y., in September, 1971.

Like other visitors, they went out to the monument on a sightseeing boat but, once there, barricaded themselves behind planks and chains and refused to leave. U.S. District Court Judge Robert Ward aigned an order directing them to leave.

Cambodian Garrison Routed From Beachhead by Rebels

PHNOM PENH, April 21 (AP). River at a point 14 miles north -Rebel troops routed govern-ment forces from their beachhead north of Phnom Penh today after a savage 24-hour at-tack, the Cambodian command reported.

Casualties among the estimated 1.500-man garrison were not known but were feared to on heavy. Some of the troops managed to fight their way 1 1/2 miles to the north to join government troops isolated at Longvek. The command said. .

The Kompong Luong beachhead, 23 miles from Phnom Penh, had been reinforced with 20 armored vehicles and four 105-mm cannons. A number of armored personnel carriers were destroyed but it was not known if the guns were still operating when they were abandoned, sources said.

The troops on the beachhead and in the Longvek vehicle repair facility just to the north were originally sent to retake Oudong, the 17th-century former royal capital that fell a month ago. Oudong is 20 miles north-

west of Phnom Penh. A Western military observer sald the withdrawal from the beachhead represented a major defeat for the government, and an Asian diplomat said, "There is nn way to withdraw the troops from around Oudong: they must fight

to the death." The government's only option to save the troops and armor around Oudong would be to mount a major navy operation to reinforce the beachhead or open Highway 5 to the beleaguered garrison. Highway 5 is controlled by the rebels for 10 miles south of the beachhead. No rescue operations have been planned, according to diplomatic sources.

Insurgents have strung wire and mines across the Tonle Sap

Florida Police Probe Banker's Kidnap Story

HALLANDALE, Fla., April 21 (AP:—Albert Dantzier, 43, assistant vice-president of the City National Bank here, was reported "in excellent spirits and good health" in a hospital yesterday, as police sought .o unravel the circumstances surrounding his apparent kidnapping.

He told police that he had been

abducted at gunpoint Priday by two men and held for \$60,000 in ransom until he jumped from a boat in the Atlantic Ocean and had an exhausting two-hour swim to reach shore early yesterday morning. Asked about the possibility of a hoax. Police Chief James Longo said: "There is always that possibility." Mr. Dantzler had ralled his bank Friday demand, but the kidnappers did eize, police said.

After Months of Politicking

Soviet Setback Seen in Bid To Call World Parley of Reds

By Richard Homan

soviet Union has apparently siled in a diplomatic campaign to convene a world conference of Communist parties that would be expected to affirm the Krem-lin's role as the global leader of

i amini

After eight months of politicking, the Soviet Union has won only a handful of endorsements for the conference, which Romania and many of the nonruling Communist parties in the West

Russia Cites Fast Growth By Industry

quarter yesterday showed that Soviet industry grew faster than planned during the first three months of 1974 but that the consumer branch did not keep pace with the ambitious targets set for it this year.

The productivity of labor, the principal yardstick for gauging efficiency and therefore, an indicator of modernization, showed strong growth. It rose by 6.7 percent, somewhat more than

In the energy sector, oll production was shown to be growing more slowly than planned, but this was compensated for by in-creases in gas and coal production.

The oil industry managed an output of 110 million metric tons. slightly behind the rate needed to achieve the goal of 451 million tons for 1974. But the gas industry was on target with an out-put of 64.1 billion cubic meters. and the coal industry was above plan with a production of 173 mil-

The first-quarter statistics. printed in the government news-paper. Investla did not give any results for agriculture, although recent reports in other newspapers showed that spring planting had taken place on a smaller acreage than last year and had been hampered somewhat by the weather. But the report showed a surprising drop in the production of grain harvesters, an important item in plans for the industrialization of agriculture. The production this quarter was 20,600, down 20 percent from the first quarter in 1973. The decline may have resulted from retooling as the farm-equipment industry shifted

in new models. The overall industrial growth rate, over the first quarter of 1973, was given as 8.3 percent, well above the planned target set for this year of 6.5 percent.

However, in light industry, the principal component of the consumer sector, the growth rate was percent, commared with the 7.5 percent growth promised Soviet consumers by economic

VIENNA. April 21 (WP).—The fear would be used chiefly as a To continue the momentum that had slowly built for the convening of a world conference, the Soviet Union, in the view of Western analyst:, needed a public endorsement by its own bloc of military allies, the Warsaw Pact, which held a summit meetmg in Warsaw last week.

But opposition by the Roma-nian President and party chief. Nicolae Ceausescu, which had stiffened only in recent days. made a joint endorsement by the pact impossible and the commu-nique of the Warsaw meeting made no mention of a world con-

The failure to win significant support for its proposal is certain to be a propaganda setback for Moscow, softened only by the fact that the Kremlin bas carefully avoided publicly issuing a call ltself for a conference.

Western diplomats believed that as a face-saving move, the Kremlin is now working toward a pan-European conference which, if the political climate were to change, could become an intermediate atep toward a later world meeting.

Mr. Ceausescu, in an interview
two weeks ago, virtually ruled out

Romanian participation in a world conference in the foreseeable future. International meetinga, he said, "must exclude any criticism or condemnation of an individual party. "Consequently," he said, "we

consider that sustained efforts will still have to be made to create the necessary conditions for au international meeting."

The last world conference was beld in Moscow in 1969 and, since then, the complexion of international relations has changed con-siderably, with detente, rather tban rivalries, being emphasized. In January party officials from 67 nations met in Prague to celebrate the 15th anniversary of the international review, "Prob-

and, for the first time, the cam-paign for a world conference began to faiter. A test came at the end of January when leaders of the Western European Communist parties met in Brussels. There, little support was expressed and the matter was simply ignored, including by the French and

lems of Peace and Socialism."

Italian parties. So far, only six of the world's 14 ruling Communist parties have publicly endorsed the Soviet Union's proposal—five Warsaw pact nations and Cuba. Fewer than a dozen of the many nonruling parties in the West have

Russians Trv Price Appeal On Plethora of Drab Goods

MOSCOW, April 21 (NYT) .-The Soviet Ministry of Trade, caught with huge backlogs of unsold consumer goods for the Jomestic market, has resorted to a nationwide spring clearance sale to overcome customer resistance to goods that have passed out of

The ministry announced a 40to-50-percent price cut on clothtog items produced before 1973 in an effort to dispose of them. In Moscow slope, 60 stores were reported taking part in the nation's first large clearance sale in

The need to use such tactics terlects not only the inefficiency of the Soviet consumer industry but also the increasing sophistication of Soviet consumers, especially in the big citics.

Periodically, Soviet newsuapers report on the consumers' refusal to buy shoody, drab clothes, shoes and other items that clog the Sorlet retail network. you drop into a store, you will see an abundance of 2000s." Praida quoted a Muscovite as having sald. "But when you begin to choose shoes, a suit, clothing. you find very often that they are not selling what you need."

A few olcoths back, the Courmunist party newspaper disclosed that many millions of paus of shoes han remained nosold in a five-year period because eustomers found them shouldy and unetylish. It said that 24 million radics were sitting on slicives because the market had been saturated, and what people really wanted were lil-fi sets, almost impossible to find.

Some officials were optimistically predicting a brisk trace in marked-down items, on which the Trade Ministry said it was prepared to absorb a \$1.5-billion loss. Minister of Trade A. I. Etruyev said that sale items had been moving well since Monday in Leningrad, Minsk, Tbilisi and

in Ukrainian cities and villages. But the reality in two Moscow stores was more modest. The Centrai Department Store, near the Ballet Theatre, said that it had not put any goods on sale in the special sections mentioned by the press. Nearby at Petrovsky Passage, the managers had tucked away two sales counters on the second floor.

Trade there was much slower than at other counters. Almost no one was attracted by a rack ol thick, heavy but old-fashioned prercoats. Equally neglected aud somewhat out of place in that male company were two largesized women's uightgowee.

The men's suits, rumpled from storage in a warebouse, were mostly drab, blue-graps and of an m-between weight that would bardly go for any season in Moscox. The sizes were odd-large 50s, medium-small 44s, but none of the popular 48 size. The shoes were the plain, thick-heeled style preferred by stout matrons, who were the main customers at that

display. "Rubbish." a man said after looking over a few women's blouses, pale red and flowerprint. But three women nearby

"Why not take it?" one said. "It's good."

The chase after fashion, according to Mr. Struyer, is what caused the backlog of goods in the first place. He acknowledged what many customers have complained about-that Soviet industry has terrible difficulty trying to keep up and usually lags years be-

Copying Styles

The more sophisticated Soviet customers manage through tourists or traveling friends, to buy goods, or else—using fashion magazines or Soviet journals that copy themthey bring material to tailors to have them hand-made.

Others try to find items from the Baltic republics-which are known for better quality productiun than Russia proper—or from Georgia, where illegal, underground textile enterprises were producing large quantities of consumer items until a severe crackdown by a new party leadership.

"I vish i could get to Tbilish (the capital of Georgia) for this sale season," a Muscovite commented. "I'll bet they are selling at least a few things there that are interesting.

But as for the goods in Moscov. the shopper said. "I know that if they are cutting the price 40 percent, the goods must be something nobody would want to bur. I am not even going to bother to

FEATHERED FRIENDS-Mrs. Elsic Wright visits New York's Central Park daily with quarter-pound sack of peanuts for pigenns, who flock to her generosity.

Easy Victory for Nationalists Seen in South African Vote

2I AP .- Weak challengers to the right and left have virtually no hope of defeating Prime Minister Jon Vorster in a general election Wednesday.

Mr. Vorster's powerful Nawonalist party has beld office for 26 years. Our sign of his con-tinuing strength is that experts expect to assess results of the voting, not in terms of whether the "Nats" are re-elected, but by now badly the opposition is trounced and how they react to yet another defeat.

Sir de Villiers Gracff has led the main opposition United party for 16 years and to defeat in four carlier elections. He is expected to resign if his divided party is crushed for a fifth time.

The United party has been in disarray for months, Sir de Villiers has not been able to conspletely paper over a split between reform-minded elements and the conservative wing. South African newspapers refer to these factions as Young Turks and the Old

Sir de Villiers was embarrassed last year when one of his top aides, Marais Steyn, a leading member of the Old Guard, boited ibe party to become a Nationalist. A number of English-language newspapers, which have tradi-tionally supported the entire United party slate, served notice this year that they would endorse candidates on individual merit.

Some analysts, including Mr. Vorster, expect an entirely new party to evolve after the balloting which would include some of the more liberal United party members and like-minded refugees from the small Progressive

"It is noticeable that there are a group of young United party supporters who call themselves the Young South Africans," he said at a political rally on April 4.

Experienced political observers say that Mr. Vorster, 58, called an election one year before required by law to take advantage of internal wrangling in the United party and also the recent redrafting of parliameutary constituencies, which is said to lavor Nationalist candidates.

The vote was also dubbed a security election" after the prime minister based his campaigning

Anti-Rebel Kurd In Top Iraq Post; Fighting Goes On BEIRUT, April 21 (AP).— Iraqi President Ahmed Hassan al-

Bakr, in a fresh bio to pacify rebellious Kurds, today appointed a well known Kurd as one of the nation's two Vice-Presidents. the Iraqi News Agency reported from Bagbdad.

The appointee. Taha Mobeiddin Maarouf, was sworn in today. He has twice held ministerial posts until recently was Iraq's ambassador to Rome. A native of the Kurdish-dominated area northern Iraq, Mr. Maaroul. al, is said to support Mr. Bakr's policy of limited autonomy for the Kurds, as opposed to the full autonomy demanded by the Kurd rebels' Gen. Mulla Mustafa Barzani. The rebels insist on control of all northern Iraq, including the oil-rich Kukuk area.

A spokesmao in London for

Gen. Barzani's Kurdistan Demoeratic party denounced the appointment, dismissing Mr. Maarouf as a "quisling" who did not represent the Kurdish liber-A broadcastine outlet for the

Fighting continued in major towns throughout northern Iraq. with Iraqi artilleri and hombers constantly attacking Kurdish positions, the radio said

fidence to keep South Africa "safe in the dangerous years shead." His purpose in moving the election ahead by one year, he said, was to obtain "a free hand to deal with what may come."

Nationalists have governed this country since 1948. They held 118 of the 166 seats in the last House of Assembly as well as solid control of the Senate, The last election was in 1970.

There were 334 candidates noninated to contest 171 seats in the enlarged House, with 31 Nationalists and 12 United party members returned unopposed.

Only about two million of a white population of 3.7 million are eligible to vote. The 14,8 million blacks have no franchise in the Cape Town Parliament, nor do the 1.9 million coloreds, as those of mixed ancestry are labeled, or 614.000 Agians.

Coloreds have their own parliament, the Indian community has a legislative body and blacks can vote in their tribal bomelands. In comparison with the all-white Parliament, however, Chief Gatsha Butbeiezi dismisses these segregated bodies as "separate subordinate Institutions which have only limited power. Chief Euthelezi is administrative leader of the Zuiu tribal homeland and an outspoken black politician.

Mr. Vorster's vision of the future is that of a "power bloc" based on cooperation among such independent states as Rhodesia. Malawi, Botswana, Lesotho, Swaziland, the black homelands within South Africa and, of course, "white" South Africa itself.

Colombia Voting For Presidency Reported Light

BOGOTA, April 21 (Reuters) .lombia's first open presideutial elections in more than 25 years appeared likely tonight as thousands of voters ignored the poils.

Pive hours after voting began. many polling stations in rhe capltal-each of them scheduled to register the choice of 400 votersreported that only 10 or 20 citizena had voted.

Reports from the provinces also indicated a low turnout and a peaceful poll despite thousands of gaily clad party militants urging people to vote for one of the five candidates.

Favored to win is Alionso Lopez Michelsen, 60, candidate of the Liberal party. His chief opponent is rightist lawyer Alvaro Gomez Hurtado, 55, of the Conservative party. The two are expected to split about 60 percent of the vote.

But a third candidate. 40-yearold Sen. Maria Eugenia Rojas de Moreno, the only woman ever to have run for the presidency of B South American republic, has shown considerable atrength as an

Sri Lanka Cabinet To Be Challenged .

COLOMBO, Sri Lanka, April 21 Reuters - Rightist opposition leaders today warned that they would still try to force the government to resign desplte a curfew imposed last night and a ban on planned nationwide protest But the opposition United Na-

tional party made no attempt to dely the ban or the curiew. The UNP and other groups had planned demonstrations today to demand the resignation of Mrs. Sirimavo Bandaranaike's leftisi coelition. They claim that it is unable to solve Sri Lanka's eco-

nomic problems or hold down the

cost of living.

Students Clash in Peru LIMA, Pcru, April 21 /Reuters -Six students were injured by gunfire and a university hall was wrecked by a bomb blast during clashes at Gonzaga Unirersity in Inca Protince, 185 miles south of here, the Perurian police reported yesterday.

Peking, Tokvo Sign Air Pact; Taiwan Bans Japan Flights

By Fox Butterfield

TOKYO, April 21 (NYT).-After months of controversy Japan signed au ariation agreement with China yesterdar, setting up flights between the two countries. But in retaliation Talwan immediately hadned Japanese planes from its airspace and cut off their right to land in Taipei.

Taiwan's swift response, which had been publicly threatened for weeks but still unexpected here. appeared to seriously jeopardize the political standing of Premier Kakuci Tanaka and foreign min-ter Masayosbi Oltira, one of

Mr. Tanaka's closest supporters. For Mr. Ohira, who had led the drive to conclude the air accord with Peking despite biller opposition within his own ruling Libert I-Democratic party, had pledged to sign the agreement only if the route to Taiwan was simultaneously preserved.

Ammunition to Rivals "This is going to give Premier Tanaka's rivals in the party a lot of ammunition," an associate of Mr. Tanaka remarked tonight.

"It is a very bad deg."

Mr. Tanaka and Mr. Ohira met with party and government leaders late into the evening and again today in an effort to find some way to persuade Taivan to reconsider its action. But officials said they coocluded there was no miniediate solution. Both Japan Air Lines and

Taiwan's Chiua airime immediately canceled their flights last night and today from Tokyo to Taipei following the annuunce-

ment of Taryan's action by Chinese Nationalist Foreign Minister Shen Chang-huan. In addition, a spokesman here for China Airbnes said it was already in the process of closing its Tokyo office and transferring it; air cargo to other airlines.

Japan Air Lines had 37 flights week to Talpei carrying an sterage of 30,000 passengers a month, while China Airlines had 21 flights a week. The route had been Japan Air Lines' most lucrature one, earning 10 percent of the company's annual revenue. The new accord with Peking

has been under negotiation for a year and a hall, represents a commercial break-through for China, since under it China will now have the right to fly to Tokyo and Oraka in Japan and then on to seven other keations in Canada, the United States aoo Laim America, of which only Vancouver and Otlawa were specified.

Under the agreement Japan Air Lines will be able to tly to Peking and Shangilai and then on to the Middle East and Europe via either India or Pakistan, il Japan can arrange landing rights in either of those countries.

The accord must still be ratified by the Japanese legislature, where it will probably be introduced next Brook. The opposition parties all sun-

port the agreement. But right-

wing members of Premier Tana-

Far From Settlement

Amnesty Issue Still Splits U.S.

WASHINGTON INYT, -- These men should be tried as they are captured and then executed for their traitorous actions." "All we were guilty of was premature morality."

"There wouldn't be one of them that would hesitate to bear arms if it was a matter of protecting their country."

All three speakers—a Baptist minister from Florida, a yonog exile in Toronto, the mother of a draft evader who is now in Singapore-were talking about the same thing; amnesty.

Although the Vietnam war ended, for Americans, more than a year ago, the first full-scale congressional review of this issue. held this winter, demonstrated that the question of amnesty for draft evaders and deserters is still a Vietnam battleground.

Partly because it is, as the hearings demonstrated, still so divisive an issue, it is unlikely that there will be any action in Congress this year. But for the thousands of young men who would be affected, and for their familles and friends, it is e matter of desperate personal importance, just as it is one of great moral significance to those groups that have adopted the

Variety of Bills

Congressional bills on the subject of amnesty range from these that would unconditionally remove penalties imposed ou anyone involved in activities protesting the Vletnam war to resolutions condemning the granting of any sort of amnesty to anyone. In between are proposals that would lift the penalties for certain offeders under certain con-ditions, such as the performance of alternative nonmilitary service for their country.

Amnesty does not, as President Nixon and many others have said. mean fergiveness. Its roots lie in the Greek word for forgetting, a linguistic irony in the light of the angry, blitter feelings that the issue Itself arouses.

The minister who recommended trial and execution to Rep. Robert Kastenmeir, D-Wis., who is chairman of the House Judiclary subcommittee that held three days of hearings on proposed amnerty legislation in March, was one of about 4,000 persons who have written the subcommittee. amnesty than opposed It.

The letters include torrents of abuse, describing draft evaders and deserters as traifors, shirkers and cowards. But others display a thoughtful olstress, and still others an agonizing bitterness.

A man from Mount Vernon, N.Y., who said that he had been drafted into the Army and lost hoth arms, both legs and one eye in Vietnam, wrote: "The draftdodgers had the same choice I had. They chose the other path. Why should they now be given another chance? Can I be given another chance? If ampesty is granted, every guy who fought in Vietnam will look like a God-damned idiot."

A gentle answer came from Mrs. Peg Mullen, a "gold star mother," whose son Michael was killed in Vietnam four years ago Orging the passage of uncondi-tional amnesty legislation, Mrs. Mullen told the subcommittee: "If I am to believe that my son sacrificed his life for some higher ideal, if I am to receive any comfort for my son's death, then let me believe that he dled so that some other mother's son, somewhere, might now come home."

Exiles in Canada

Mrs. Mullen, like the great majorlty of those working for am-nesty, rejected the idea of conditional amnesty as implying some guilt on the part of the young men who fled the Army or the draft. The largest concentration of these exiles is now in Canada, There they are believed to total 10,500 to 15,000, although many of the exiles themselves put the figure much higher.

reject conditional amnesty, Alan Kazmer, a descriter who is now a copywriter for a Toronto advertising agency, said he would not accept conditional amnesty if the condition were to carry four owners of feathers across the

"I'm not accepting acything tirat implies that we've done something wrong," he sald, "The point of view that made us come to Canada has now become the prevailing view in the United States. So what do we have to repent? I'll start thinking about

repenting when I see Spiro Agnew behind bars." Stanley Pietlock, one of the first of the draft exiles to become a Canadian citizen, teaches school in Toronto, He is under Indictment for draft evasion in the United States. He said he might accept some condition for amnesty that he could meet during his summer break from teaching. "All we were guilty of was pre-

meture morality." he said.

By Linda Charlton

"We won't even talk about nesty," said Mrs. Josephine Morrow of East Wenatchee, Wash, whose son, Michael, 28, has been in exile-first in Canada and now in Singapore—since he was refus-ed conscientious objector's status by his draft board in 1968. Mrs. Morrow, a retired nurse, and ber husbend John, a retired electrician supported their son from the beginning, from the time he wrote them a long letter after the siege of Hué, which he

journalist. Mrs. Morrow carried a copy of the letter—'I wouldn't let the original get out of my hands." she said—when she came to Washington to be present, as a spectator, at the amnesty hear-

"I will not," ber son wrote, a part of a polley which has no rational foundation yet articulated to me and which borders dangerously to crime against humanity, I hope you will understand."

Mrs. Morrow is convinced that amnesty wili be granted eventual-"It's how long," she sald, "We're not as young as we used to be."

For many proponents of amnesty, the issue has become a demand for vindication, for official admission of the war's im-

At the same time, the amnesty drive has become an attack on the military establishment. The demand for amnesty. In at least one blll, is coupled with a demand that all those young men-about 450,000 of them-wbo received less-thao-honorable discharges during the Vletnam era, for no matter what reasons, be given honorable discharges. Others, such as that sponsored by Rep. Bella Abzug. D-N.Y., would extend unconditional amnesty "to all classes of essentially nonviolent resisters of the war, including not only draft evaders and deserters but auti-war demonstrators."

These demands are in no way ap-peased by conditional amnesty proposala such as that made by former Secretary of tha Army Robert Fræhike or the parallel "earned immunity" legislation sponsored by Sen. Robert Taft jr., R-Ohio. These proposals not only require an admission of guilt unacceptable to the proponents of unconditional amnesty, but also are viewed as unworkable, in part because of the large numbers of people said to be involved.

Just how large these numbers are is uncertain. The pro-amnerty groups generally claim bigher estimates than others. figures used by Rep. Kastenmeler in his opening statement came from the Departments of Justice and Defense, and even

they were not precise. Prom 1963 to 1073, there were 206,775 men "referred to U.S. attorneys as draft-law delinquents." During the same decade. 19,000 were prosecuted and 9,167 convicted of draft-law violations. About 4,000 young men were prosecuted for desertion, and the Pentagon estimates there are 23,000 descriers still at large, of whom about 10 percent are beifeved to be overseas.

Instances in History

Those who are calling for amnesty point to precedents:

"There have been," Rep. Edward Koch, D-N.Y., told the subcommittee, "34 instances of amnetty in some form in American history." But others note that the parallels are not exact and that postwar "pardons" have always imposed conditions.

Ren. Kastenmeier commented at the close of last month's hearings: "These three days of hearings have shown grave differences over the issue. I just don't think we're close to resolving it, that's

This is, of course, an election vecr. no time to be acting on controversial occarures if number of constituents directly affected is comparatively small And a knowledgeable subcommittee staff member describes the chances for action on any of the

bills as "unlikely." "What I hate to see is this being a battle joined by two ideologies," said Rep. Koch, conceding that this is what has, in fact, happened.

favors unconditional amnecty for draft evaders and deserters, but believes it is unrealistic to expect congressional approval. He bas, therefore, introduced a bill providing for two years' civilian "alternative service" as a condition for amnesty. As a result, he said, he is the

target of both sides. Rep. Koch noted that publicopinion polls had shown a gradually increased acceptance of the notion of amnesty. A Louis Harris poll released shortly before the hearings began showed 45 percent in favor and 43 percent opposed. Last year, the response to the same question about conditional amnesty was 43 percent in favor and 49 percent opposed. A Gallup poll of about the same

'Just Think—If We'd Supported Nixon We'd Be Misunderstood Young Idealists'

time showed that 46 percent of those polled would allow draftresisters to return oo the basis of either military or civilian service. Only 29 percent, however, accepted the notion of unconditional amuesty. In the Ear-ris survey, those in favor totaled

The concept of an uncondltional amnesty is apparently difficult for most Americans to accent, but the attachment of some condition—a symbolic gesture satisfies most. It does not satisfy those groups that are flatly opposed - veterans' organizations such as the Veterans of Poreign

Wars, Young Americans for Freedom and the Nixon administration. Nor does it appease the bulk of the organized pro-amnesty forces, which include church groups of all faiths, civil rights and civil liberties organizations, and a multitude of ad boc

Gallup Poll Reports

Shift in Attitude to Draft Evaders

By George Gallup Director. American Institute of Public Option

PRINCETON, N.J. (IHT).-Although a year of peace has mellowed American attitudes toward draft resisters, a majorily of the public continues to oppose unconditional amnesty for them. In the latest Callup survey on percent men who left the United States to avoid the dreft should not be allowed to return without punishment. Last year, 67 percent held

But fewer than one person in 10 (8 percent) thinks those who return should be punished by fine or imprisonment

All persons were asked the fol-

lowing question: "Do you think young men who left the United States to avoid the draft should or should not be allowed to return to this country without some form of punish-

ment?"			
	Should	Should Not	Opini
1974	34	58	8

Policeman Sees 'Fantastic Change'

Inner-City Crime Has Moved To the Suburbs in America

By Andrew H. Malcolm

Not long ago, this mush- players." rooming northwest Chicago suburb almost bad Its first homicide case. However, the body was found to be 14 feet inside the boundary of a neighboring suburb, so Schaumburg's murder slate is still

But the incideot illustrates a serlous, though little noticed, fact of life in suburban America: Major crime, once associated only with the big cities, has also found presperous new home in the housing tracts and the shopping centers of the suburbs.

Preliminary 1973 figures, just issued by the Federal Bureau of Investigation, show that serious crimes rose 3 percent in cities and 5 percent nationally. In the suburbs, however, serious crimes jumped by 10 percent.

In the citles, violent crimes grew 3 percent. In the suburbs. they grew 13 percent, Aggravated assaults grew by 5 percent in the cities and 15 percent in the sub-

This steady development has seen once sedate suburban police departments boost their budgets, manpower and training, start nationwide recruiting drives, computerize crime and personnel records, undertake ambitious youth and crime-prevention programs and take tentative steps toward

intersuburban cooperation. The reasons for the crime increase are varied and complex, but authorities say they stem primarily from the rapid growth of the suburbs, which, in effect, have become "outer cities." There are now, for instance, 75.8 million suburban residents and only 63.7 million city residents.

For years the cities have been considered crime-infested swamps where sidewalks were unsafe. This was an image-end in some cases a reality-that many dwellers fied from to the suburbs.

"It's been a fantastic change," Martin Conroy, Schaumburg's police cines, said, "In the cities Those interviewed were asked:

SCHAUMBURG, III, INYT).— same ball game. Just different square miles had a population of 1.000. Mr. Coprov was hired as

Iu 1960, when Schaumburg's 8.5 chief of the one-man force. His main concerns then were speeding tractors, wayward cattle and a justice of the peace who bad never heard a case.

There were no local ordinances then, so Mr. Conroy typed up some laws from other communities which Schaumburgians thought they might like enforced

Today, Schaumburg is the Chicago area's fastest-growing com-munity. Its 25 square miles support a population climbing through 35,000 on the way to a planned 230,000. The 52-year-old Mr. Conroy, who like many suburban policemen was once a bigcity cop, is chief of a 49-member department linked by a sophisticated radio network in a vehicular fleet that includes a \$20,000

Atlantic Alliance Views

Implications of October War

the risks of hypothetical history, it is reasonable to contend that World War II would not have occurred if Britain had sterdam last vear. agreed with France to use force, if necessary, to prevent the mili-tarization of the Rhineland in 1935. But in the middla 1930s, Britain could not break the spell of somnambulism which kept it from perceiving the danger, and

acting to deal with it. The October war in the Middle East raises the same kind of questions for the Atlantic allies, for China, and for Japan. All are agreed in opposing Soviet begemony either in Europe or in Asia. Soviet domination of the Eurasian land mass would trans-form the world balance of power, and, therefore, threaten tha territorial integrity and political in-dependence of each of these nations, and of many more as well. But European and American public opinion, bulled by the soothing rhetoric of détente used by nearly all the allied govern-ments, is only dimly aware of the nature of recent events and of their implications.

By Eugene V. Rostow

At the moment, the West has too few political leaders in tha spirit of Churchill and Truman, of Adenaner, De Gasperi, Acheson, Attlee, Schuman, and Monnet-men who trusted their people and were willing to offer them nothing but blood, sweat and tears. Detente with the Soviet Union—an agreement of peaceful coexistence, based on respect for the Charter of the United Nations with regard to the use and threat of force in international relations—is a po-litical condition the allies have sought through thick and thin since 1945, and even before that, must always be a major goal Western policy.

Goal Not Reached

As the October war and its aftermath demonstrate, however, this goal has not been reached, The Soviet role in the war was fundamental and deliberate. It cannot be reconciled with the Charter of the United Nations and the decisions of the Security Council, nor with the promises Leonid Brezhnev made to Presi-dent Nixon in the ill-fated detente agreement of May 29, 1972, In May, 1972, Mr. Brezhnev

publicly essured the United States not only that the Soviet Unioh would generally ablde by the rules of "peaceful coexistence." but that it would exert all its influence to achieve a diplomatic conflict in accordance with Security Council Resolution 242 of Nov. 22, 1967. That resolution was sponsored by the British government, and supported by a concerted Atlantic diplomacy achieved through consultations in which all the allies, including France, participated fully, Resolution 242 calls on the parties to reach an agreement of peace, pursuant to which Israel would withdraw from territories it occupled in the course of the sixday war to secure and recognized boundaries established by tha agreement of peace. Because Egypt had violated the agreement with Israel negotiated in its behalf by the United States in 1957, Resolution 243 requires no Israeli withdrawals from the cease-fire lines until the parties concur in an overall agreement of peace, establishing security arrangements, including demilitarized zones; guarantees maritime rights through all the international waterways of the region; and a just settlement of the refugee problem. This is tha essence of the famous "packagedeal" of Resolution 342, which had--and hopefully still has-the support of all the Atlantic allies, and of many other nations as well. In 1967, Soviet representatives said of Resolution 242 that it was the first time in the history of the cold war they used the phrase "package deal" in a positive sense.

Soviet Role

Far from persueding Egypt and Syria to enter into the negotia-tions called for by Resolution 242, however, the Soviet Union spent six years, billions of dollars and the time of many thousands of its experts in training, equipping and organizing the Arab armies for the attack of Oct. 8, 1973. Even though Egypt's President Anwar Sadat cleared Soviet troops out of Egypt in 1972, many Soviet military men partleipated in the war, not as frontline troops, but as operators of highly sophisticated military technology and as planners. The Soviet Union gave the war its full diplomatic support and even urged distant Arab states to enter the fray. The Soviet Union refused even to discuss a cease-fire until it was clear that Israel had won the war.

The Soviet plan was to exploit Arab hostility to the existence of Israel as the detonator of a war. which would produce irreversible change in the area and thus make the Arab states completely dependent on Soviet protection. It is not difficult to imagine the

This is another article of a series published in the Interna-tional Herald Tribune on the problems and differences of Europe-U.S. relations. The series is being coordinated by Joseph Godson, who organized the Europe-America Conference in Am-

Eugene Rectow is professor of law at Yale University, president of the Atlantic Treaty Association, and was the U.S. under secretary of state for political affairs in 1966-1969. This article was written before President Anwar Sadat's statements last week.

moral shock to Western opinion if the war had resulted in the destruction of Israel.

The October war could not

have taken place without Soviet backing, which offered Arab leaders the irresistible appeal of undoing what they regarded as the injustice of the long chain of events flowing from the Balfour Declaration. It was the most serious and fundamental Soviet thrust of the entire postwar pe-riod against the Atlantic alliance -a bold and carefully prepared attempt to neutralize Europe, dismantle NATO, and drive the United States out of the Mediter-ranean and Europe itself. If the great arc from Morocco to Iran were brought under Soviet control, the allied forces arrayed in Europe would be outflanked, and in peril. With the oil and space of the region in Soviet hands, the fate of Europe, Russians thought, would be settled. What was at stake in the October war was therefore infinitely more serious than the possible outcome of earlier cold war confrontations over secondary issues like Iran, Greece, Turkey, Berlin or Cuba. The October war was not a tacat the heart of the alliance.

Its Grimness

The October war should therefore be perceived as a Pearl Harbor, a flash of lightning revealthe nature of Soviet policy in all its grimness. It dramatized a threat to the security of the allies which can only be met if they act together with the greatest possible energy, imagination and tirgency. They have a little time in which to concert their policy, thanks to the victory of Israeli arms, backed by the staunch diplomacy of the United States, with the assistance of Portugal and, less visibly, of others among the allies.

But this brief allowance of time will do the allies no good if it Are the allies rallying in har-

mony to meet the common dan-Or are they treating the October war as Britain treated the occupation of the Rhineland This is the concern behind the American government's vigorous

recent efforts to persuade the allies to develop concerted Atlantic policies on a long list of fundamental problems which afas directly, and as vitally, as the possibility of invasion by land across the central front in Ger-Since Suez, the allies have often differed on a number of political,

security and economic questions not directly affecting the central front. The United States is now convinced that the comfortable pattern of intermittent allied dissonance which has prevailed since Suez is no longer tensble as a basis for policy.

In this, the American government is clearly right. The rising level of Soviet pressure makes that pattern a hixury we can no longer afford.

This is not a time for mutual recriminations about the many mistakes and missed opportunities of the last 25 years. Each of the allies has made mistakes, many of them serious, all of them painful. It is a psychological reality that each of these blunders left behind a residue of resentment which affects the polities of the alliance.

Positive Memories

But the allies are bound together by other and more positive memorles. They worked together successfully to build NATO, restore Europe and develop a far-reaching and progressive Western economy, on which their own prosperity, and that of many other nations, depends. for political reality.

They should approach the issues of the day in the spirit of that set of memories, and with full awareness of the fact-and it is a fact which no one can alterthat they share an indivisible destiny, which can be protected only if they work together.

In the nuclear age, the security of Europe requires the per-manent cooperation of the United States and its European allies. None of the economic problems of the industrialized world can be dealt with except through the cooperation of the OECD members, and a number of other na-tions, including the oil producers and other developing nations: The degree of integration of the OECD economy means that the main economic problems of the worldwida Western economy are now beyond the reach of any nation or group of nations acting alone, no matter how powerful,

Political Issues

Different combinations of nations are required to deal with the main political problems of the world-those which are universal, like the control of nuclear weapons; and those which are regional, like the security of Europe. Asia, Africa and Latin

One of the most urgent of these political issues is the enforcement of the Security Comcil's binding decision of Oct. 22, 1973, that the parties to the Middle Eastern conflict must negotiate a just and durable peace, in accordance with Resolution 342. The Oct. 22 resolution is the most constructive single step ever taken by the international community in the conflict over Israel's right to exist. The chances of fulfilling the mandate of that resolution would be enhanced if the process of carry-ing out the Security Council's decision is backed by the concerted influence of the Atlantic allies, which was decisive in achieving Resolution 242 in 1967.

Peace between Israel and its neighbors will not alone assure the interests of the alliance in the Middle East. But no program for safeguarding those interests can succeed unless the Security Council decision of Oct. 22, 1973,

is obeyed. The nature of Soviet foreign policy, and the implacable prob-lem of nuclear deterrence, have rendered many ideas obsolete. In 1949, many people, both in Europe and in America, thought that, once Europe was unified, American forces could be withdrawn. Europe could then take over its own defense and participate in world affairs as a strong and independent polity, well disposed to the United States and Canada, to be sure, but an autonomous third force between the Soviet Union and the United States nonetheless. The idea was just as attractive in the United States as it was in Europe, for it seemed to offer the United States an opportunity to with-draw from dangerous entanglements in foreign quarrels, and return to a stance far more congenial to the notions America has inherited about the rightful rola of the nation in world politics. This nostalgic yearning for America's isolated past is the power-ful force behind the proposals of Sen. Mike Mansfield, D-Mont, and others to withdraw American conventional forces from Europe and the Mediterranean

Neither Has Place

Neither American isolationism nor the concept of a third-force Europe has a legitimate place in the world of 1974. The security of Europe requires the indefinite presence of American forces in and near Europe, to make sure that nuclear deterrence remains credible and so that in a limited crisis the allied governments would not face tha choice between abandoning a vital interest and using the nuclear weapon. The degree of integration of the European and North American economies reinforces this principle. If there is to be any hope of curing the cancer of inflation, and maintaining a reasonable rate of economic growth, the Atlantic economy must be managed as a unit, by methods of cooperation which would have seemed utopian only five years

But men cling tenaciously to the ideas of their past. The isolationist impulse is still strongin the United States. And in Europe some still contend that Europe must choose between the principle of a "European Europe." and that of an "American Enrope." There is no such choice. For reasons rooted in the nature of things, there can be no Europe except an Atlanic Europe, just as there can be no America except an Atlantic America, On that footing, and only on that footing, both Europe and America can retain their separate and al-

together authentic personalities. If the October war and its consequences do not convince European and American opinion that Atlantic solidarity is the rock on which their future must be built, we have lost our instinct.

An Evolving Relationship

Martinique's French Connection

By Alau Tillier

L'ORT-DE-PRANCE, Martinuque IHT .- The life-sized statue of Napoleon's Josephine, Martinique's most illustrious daughter, a gone from the center of Saration Square, where it looked out over the bay of Fort-de-

The hordes of tourists from the cruise liners are too busy buying rum and Martininuan dolls to gu look for the statue, but it ran be found, half-hidden under trees st the back of the square, cover-

a multi-storied Canadian bank The statue was shunted aside in allow "development" of the sware, which will mean picasant cardens and probably an untierground parking garage.

Josephine in stone was a reminder of the old French West inites, a Carlbbean corner of inite France. Martinique still has a heavy French stamp, but acay the French presence takes ine form of glossy branches of Pinsian banks, charp stores, and my French hotels for middleium Europeans, who are replacwe Americans as the main tour-

Charming. Dilapidated

In the charming, slightly dilaforted, colonial-style Hotel de "le stands a model of a proessed new city hall; a modern, sacrete structure which would sel be out of place on Spain's Costa oel Sol. Alme Cesaire, a famed Creole poet who is also Fort-de-France's mayor ann Naicual Assembly deputy in Paris 125, rejected the dasign, prefering his small office off the Saller Reunion on the liest floor of be Hotel de Ville, where the it's business is ennoucted, for-

mally or informally, around an uid mal table. Ir. Césaire bejongs to a fraoion of French post-politicisms.

and is a contemporary of Someto a poet-President Leonola Secar Saughor. The Martinionall caser was prominent in the French Communist party until a relebrated split with the former eatier. Maurice Thorez.

He became a champion of autonomy for this island which n the language of Franco-Cariban politics means local self-Pricenment with continued aid rom France It does not mean inciape pale oce

The majority of people on Martinique and neighboring Guadecoupe look with considerable orprise on Caribbean Islanos the Grenada, which sough! and Primin. Martunque and Guacesupe are departements of France as much as Allier or Somme. and, as such, benefit from a Sigher standard of living than the rest of the Caribbean.

Higher Wages

Eusinessmen such as hotel manager Jules Prevost estimate on! wages as three times higher than on the other islands, which hot saying much, but which mean that workers get the French minimum wage and some

The children receive a French flucation and the French govenment bas just extended free ir look meak to all children un-fir 16 as part of an approximate-100-milhou-trane (about \$20 nillion, increase in subsidies to the islands. The subsidies also acude family allowances for the unemployed, licip with repts, a 100-franc October handout for Shookluldren as in mainland Prance, slum clearance and door s owning less than 10 acres.

The Ministry of Overseas De-Partments and Territories in Paris said linese measures were planned long before the death President Georges Pompioru and the calling of new elections. Mayor Cesaire called them

"humiliating," last-minute ges-

It is not only their departmental status which makes these Freech islands so important politically to Paris.

Gen. Charles de Gaulle thought highly of the islands' "fidelity." Premier Pierre Messmer, a former minister for overseas departments, and the Gaullists were thankful inr the 200,000 or so overseas votes that saved them from defeat in the 1967 parliamemary elections.

The islanders, however, are far from happy with their present status. A baudful waot independence, believing that they could make it as members of some Caribbean grouping or with U.S. help. The majority are divided between "departementalistes" and "autonomistes." with even the former seeking more oeccniralization.

French administration, with its -prefects, sub-prefects, military commanders, gendermes. riot police and a small army of bureaucrats, weighs heavily on local shoulders.

Until recently, the islands' preferts lived like latter-day governors, and a visiting Parisian described a reception at the prefect's mansion at Saint-Claude. of Louis XIV.

Grievances

Bernard Stasi, a young Centrist appointed by Mr. Messmer as overseas munister, ordered the prefects to get out into the banana plantations and sugar mills and listen to local grievances. Mr. Stasi was fired earlier this year for "lack of pouderation" and "verbal imprudence," as Mr. Messmer termed it.

The French left say, Mr. Stasi was outled at the insistence of the sugar - bacana - rum lobby. which has some powerful supporters within the Gaullist party. Island politics can be even rougher as was witnessed earlier this year when pendarnies opened fire on striktur banana workers in the northern part of Mortanique, hilling Iwo and wounding others.

Gendarmerie einels maintain that their mon were attacked by nothers with machetes. Mayor Cesaire, fighting hard to control his after, talked of an operation de guerre by the police and said neitcopters tracked the fleeing bancha workers through the plantations and that the meu were then ambushed.

How will the islands volc in the May French presidential elec-Their economic dependence on France, which hands out about 500 million francs augualto Martinique. Guadeloupe. Réumon and French Guiana, and their affection for De Ganlie erabled the Gaullists to poll a majorny on the islands. Three of the six deputies are Gaullists.

Neat Trick

But Socialist Prançois Mirterrano has pulled off a near trick which could swing the peodulum. He has gone back on the left's program, which promised the islands autodetermination. and has proposed directly elected assemblies which would decide whether the islands should be independent, Mr. Milterrand says it is not for the Prench government to rule on independence. autonomy or any other new

"we-are-not-offering-you-This independence line was announced to the islanders by Gaston Defferre a prominent French Socialist and a Fourth Republic minister for overseas territories. and it seemed to tiod the right

In speeches, Mr. Defferre told attentive crowds that they should forget what was in the left's program and listen instead in a special message from Mr. Alitterrand, which he groce den to read. It stressed the historical links between France and the islands. Mr. Defferre added that Prance bad no right to abandoo the islands, and that a leftist regime in France would give the lsianders "security and dignity" and put an eod to "the rule of officials appointed by Paris."

By security, he meaut a new effort to push industry, for the Islands' economies are suffering seriously from compelltion from French sugarbeet growers and sinking banana prices. A big effort has been made to exploit the tourist potential and thousands of new hotel rooms are under construction, particularly on the golden strip outside Pointe-a-Pitre in Guadeloupe. Landing fields, golf courses and marinas are being built for rich vacationers.

Vote Left

Mr. Cesaure is happy with the Mitterrand plau and is telling the people to vote for the leftist candidate and his revised policy. He stated: "I am still for au-tonomy. Mitterrand is neither for n nor against it, but we will vote for him because a directly-elected local assembly will enable us lo choose our future status. I think Autterrand really wants decen-'barons' of the Gaullist party. who have ties with the big families here.

"We must have these political reforms before we can move on to economic reforms. We want some outside investment instead of relying on a colonial pact with a country 7,000 kilometers away. Mr. Césaire look; younger than

his 60 years. His ready smile and wit hides the fact that he is a ferocious defender of the Creole tongue and culture. He talks passionately of how "Martinique is losing its soul, is being de-humanized. We must revualize and develop our culture--our traditions, folklore, music, our originality and our language. Creole is a language which is worth saving. Don't worry. I'll never make it the official language of Martinique. We need Freuch to communicate with the outside world."

The French connection is an enduriog onc.

Mr. Cézaire made it clear that does not favor independence. "We want to be considered completely French. Now we are considered completel, different by

It looks as if the Prench West Indies will remain just that.

Radio Free Europe Researchers Take Pulse of Soviet Bloc

By David Haworth working of what is perhaps the West's most extensive analyeis operation concerned with trends and events in Easiern Europe—the research department of Radio Free Europe—is being threatened by lack of funds.

Action by the U.S. Congress has caused a 12 percent reduction in RFE's staff in recent months and, while trying to lend Pulbright that the whole institu-tion is "a cold-war relic," RFE will shortly launch a campaign for contributions from European Its executives propose that the

operational costs for running the broadcasting side of RFE's setivities should cooking to be covered by the United States, but European governments, instituersuaded to help with the rest of ils budget.

The research department has existed ever since RFE first went on the air in 1950 and is regarded as a uniquely comprehensive record of life in Communist countries. It currently employs 63 fulltime researchers, most of whom have at rarious times fled their native countries in the Soviet bloc. Their work, evideored mainly in monthly reports and background papers, bas been praisen by academics and politicians throughout the West-oot least by President Nixon, who admira to a "long-standing and unre-served admiration for the job RFE is doing." adding that it is "indispensable to more normal rela-tions between East and West and to better prospects for an enduring peace.

The research department grow to meet the needs of RFE; grounds that intelligent and inermed programs to the Eastern blor necessitated up-to-date knowledge of RFE's "larger area" on a daily basis.

During the last 15 years the department's scope has changed considerably. From being merely "passive" adjunct to the broadcasting, it has sleadily descloped its own identity and now suggests topics for programs, backing these up with facts and interpretation. Interested bodies outside RFE, including Communist chenis, began to make increasing numbers of requests for the department's materral. There are now more than 1.000 subscribers worldwide to 115 output which they receive free of charge, paying only the postal

Its orani source of information the Eastern European press itself. Every publication-ranging from national and regional newspapera to specialist magazine and even papers concerned with pop music and sports-is meticulously silled for material. Thus, RFE takes about 178 pub-

lications from Czechoslovakie. more than 100 from Poland and 30 from Bulgaria, In addition, it monitors all raote programs eman, ting from the East and reports on them. White much of this monstored material is arid propagandizing.

the expert knows what is genuine news, has learned to read between the lines of Communist oflicialese and regards no detail as too trivial to provide a useful clue to life ann events "on the other

for the last the years "Our and-iew is to present the unique teem of experts. If for any finanrial reason they had to be disbanded, they would be absolutely preplaceable. We could never tinn or train people with their special skills and background again." Already, he said, the problem facine his department is not lack of material, but lack of staff

He massis there can be no further layoffs without the quality of work beginning to suffer.

Details on Officials

A tour of the department gives going idea of the depth of research. In the Polish section, for vaniple, there are more than 150,000 index cards, nearly half of which are personal cards recording biographical details of leading past and present government and Communict party officials.

On one batch of cards, as thick as a fist, is the 20-year history of Poland's largest steel plant from its launching with Soute aid to us current production. There are files en the police, on old-age pensioners, architecture, the Roman Catholic Church, water conservation, foreign relations and even gastrooomy.

The director of RFE's Polish research section, Kammierz Zamorski, author of a book on Sotiet justice who never returned to his homeland after World War II. said: "It's interesting that the regime officially acknowledges that there are such things as in-tende delinquency and prosingtion in Poland, but no Polish "This sort of painstaking work authority will admit that un-

requires a special mess. Suit employment exict under the system Brozin an Anglo-American tem, Of course, it does Bridging who has beaden RFE research calculations with some of the material available to us we can make an accurate assessment of how much unemployment there is in the country. This core of actuaty at he sant "Benediction work, but claimed that he and his staff here on meatable aprellectual distance for Markismi

Apollo aspect of DFE: re-search effort is what he called reross-reporting. B: monitoring all Communist radio difficus the department is able to leed news back into the Sourch block informing listeners of what going on in a neighboring Commonist country.

As a matter of Communict policy, very little of "hat goes on in one Eastern European country broadcast to another. The public in each satelling country is increfore, almost as poorly in-formed of what goes on in other Warsaw Paci nation, as it is shout happenings in the West

During the last 19 years the fact that all the Communistrates, despite videly differing backgrounds, hear many problems to common and that what is happening in one may be of coasiderable interest to an audience In others has found a growing reflection in RFE's output.

A research paper on Hungarian intellectuals will provide programincterial for the other RFE na-tional services, as will an analyas of the growing ann-Chinese campaign in Czechoslovakia or the problems of the Turkish innorthy in Bulgaria or reports of Comania's juterventions at the Geneta conference on East-West security and cooperation

The research nepartment,

it controls believe its senge tations to get this incorrers of large West a concennent to record Communal bloc. It is cignificant that every Wellern ministry of toreith offers subscribe, to the department's reports. The U.S. department's reports State Department if a chem and so through a runnianout route, are the Chinese

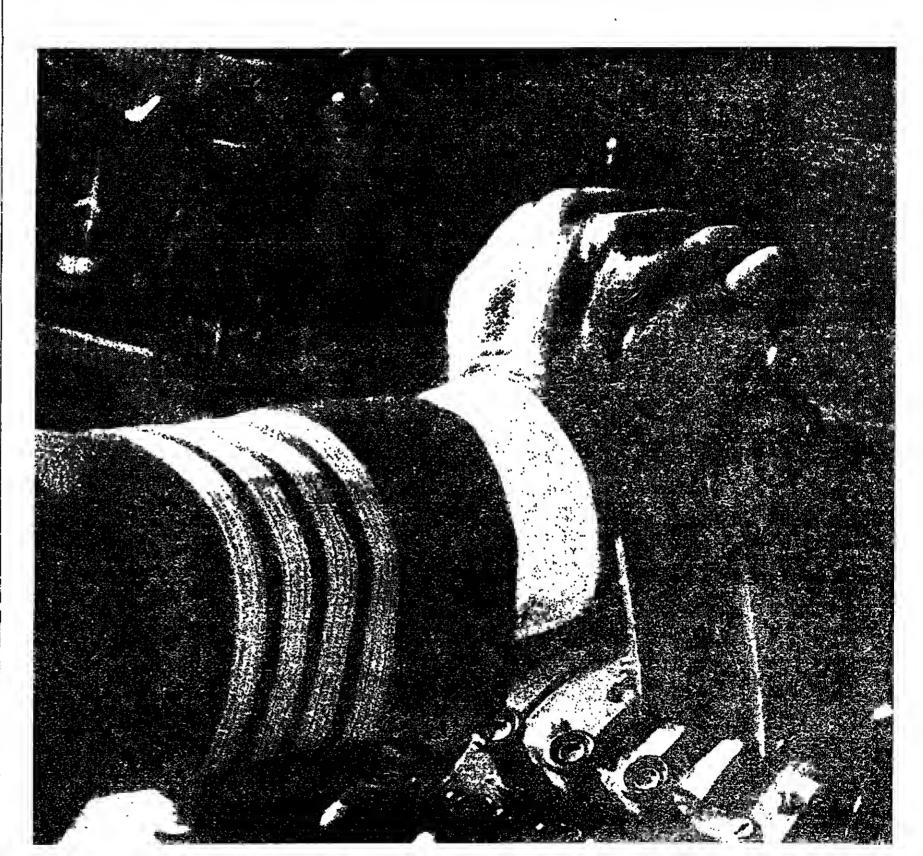

DES reffort to involve the Eurepeate more closely in the operahockeroung of the current sour-ing talky. Executives here fear there talky might simulate a de-mond from the Russians that RFE be closed down and this unobt find some sympathy in cer-tain U.S. political quarters. The feel that a contribution from Eutopean sources Would help to blunt the complaint of U.S. critics that in this, as in delease, the European; are not paying enough for facilities which are of elsenthat and direct benefit to them.

Some Are More Equal

"We convene as equals," Henry Kissinger told the delegates to the general assembly of the Organization of American States. meeting in Atlanta. And, doubtless, everyone present recognized, and many resented. that some are more equal than others, with the United States outweighing all, including huge Brazil, in present wealth and power. How then, many Latin Americans esk (much as France asks in Europe), can there be the partnership for which the secretary of state appealed?

In the Americas, as in Europe, much of the answer must come from Washington. Mr. Rissinger sought to give that answer when he said that the old notion that the United States was uniquely equipped by technology and resources to reshape the Americas no longer prevailed: that modern forces and ldeas had revolutionized the two continents and the United States accepted that fact.

To some Latin American countries, notably and articulately Argentina, the test of this acceptance may well seem to lie in Washington's policies toward Castro's Cuba. Certainly since the Bay of Pigs, the United States has seemed to be the principal opponent of Castroism, and Castro has capitalized on this to represent his government as the great upholder of Latin American independence. But in practical terms, the antagonism has diminished so substantially, and relations between Moscow and Washington -whose own confrontation over the Cuhan issue during the missile crisis was the most dramatic example of the potentials of that issue-have so improved that there is much to be said for the Argentinian characterization of Cuba's continuing isolation as "unrealistic and anachronistic."

In fact, there is rather more than a possibility that the United States would find Cuba less of a problem on practical matters (with the exception of the question of the U.S. presence at the Guantanamo Bay naval base, than Argentina itself, where the tempestuous nature of the Peronist government, and the domestic turmoil there. creates chronic headaches for industrialists and diplomats.

But by no means every Latin American country would be happy to restore Cuba to full membership in the American community. Although Latin America, as Mr. Klssinger said, has been revolutionized, each country has its own political version of the revolution, and looks askance at those of its neighbors. Cuba has become a symbol of the most complete form of revolution, one which it has exported with zeal, and many states would prefer to apply some kind of tariff to that kind of trade. As in Europe. there are differences within the community that do not stem from Washington.

But apart from Cuha, there is still much that the Americas can do to foster mutual help, and to find for the Western Hemisphere the means of cooperating with the larger community that Mr. Kissinger described so eloquently before the United Nations. For as he also pointed out in Atlanta, if blocs of nations become too self-centered. they can be self-defeating. The United States is part of the Americas-and it is also part of the world. And the same applies to all the countries represented in Atlanta, as well as to those American nations-Cuha and, for quite different reasons, Canada-

Catch 266,000,000

South Victnam's President Thleu must be heartened at the degree of carelessness conveniently exposed in some Pentagon accounting office.

Dismay was mounting in Salgon—and at the Department of Defense-that South Vietnam's war effort might have to be snarply curtailed in the coming weeks if the United States did not provide an extra \$474 million in mliitary aid for the period through June 30. The administration's lobbying for this supplemental appropriation was accompanied by a smear campaign, led by the American ambassador in Saigon, Graham Martin, to imply that those hesitating to support President Thieu wholeheartedly could only be dupes of Hanoi

Wisely resentful of these tactics and fearful of new open-ended commitments in South Vietnam, Congress blocked the new request early this month. Upon that unexpected rebuff, the Defense Department

suddenly came up with a previously overlooked \$266 million on its books, appropriated by Congress long ago in connection with the Vietnam war but somehow never spent. Key congressional leaders, rejuctant to go on record as voting more funds for President Thleu but equally fearful of later recriminations if Saigon's forces fared badly, scem ready to suspend normal disheller at the fortuitousness of this accounting discovery and let the money go to Saigon.

The whole issue of American military support for the South Vietnamese regime will come up for thorough airing in connection with next fiscal year's budget request. Meanwhlle it seems perfectly proper to wonder why an unexpected windfall of \$266 million has to be applied so casually to the account of President Thicu-rather than, for Instance, more generous education, job training or health benefits for three million American veterans of the Vietnam war.

THE NEW YORK TIMES.

Women of Rome

The Roman Catholic archdiocese of Boston has asked a nun to resign her position as one of its religious counselors at Boston University, a non-Catholic institution, because she led women students in a religious service that in some respects approximated a mass. In the Catholic church, only priests can say mass and only men can become priests.

Whatever the merits or outcome of the particular episode in Boston, it does highlight the changing trends of thought about the role of women in the church. The tradition that only men could become priests developed hecause Jesus Christ and his apostles were all men. Yet, today a great many younger theologians see no doctrinal costacle to the ordination of women to the priesthood. In their view, the male priesthood is hased on social custom rather than theological imperative.

However, when Pope Paul VI in 1972 approved a reform of the so-called minor

orders, which a candidate for the priesthood takes on his way toward his final ordination, the forces of tradition prevailed in Rome. The new decree reaffirmed that only men could be admitted to any of these orders.

The effect of this decree is to make more difficult any gradual transition toward sexual equality in the priesthood. Women, except in unusual circumstances, cannot serve the lesser offices of deacon and reader; nor can girls assist the priest at mass, a function reserved for what are usually and significantly called "altar hoys." Yet some Protestant denominations long ago admitted women to the ministry, and the pressures toward complete sexual equality in the secular world have evoked comparable stirrings among Catholics.

A church that has always elevated its heroic women to sainthood is not likely to resist indefinitely admitting them to the

International Opinion

Latin for the EEC

Those two Dutch members of parliament who suggested that Latin should be adopted as the official language of the European community were—they later admitted—not serious: nevertheless, the idea, fantasy though it may he, has its attractions. It would get rid of the French-English linguistic rivalry for one thing: and by clothing the EEC's dissensions in the decent obscurities of a learned tongue it would lend needed dignity to an unhappy state of friction.

-From the Sunday Telegraph (London).

Britain and the EEC

Mr. James Callaghan is discussing the future of the Common Market with the other community foreign ministers in Bonn this weekend. Let's hope the wise and powerful words of Sir Michael Clapham are ringing in his ears. Loud and clear.

Withdrawal from Europe, says Sir Michael, president of the Confederation of British Industry, "would he absolute disaster." Britein would lose free access to a vast market and be gradually squeezed out of others. It is one thing to talk about renegotlating terms. It is quite another to carry on with this dangerous threat that at this stage we wili-or even can-opt out.

-From the News of the World (London).

The Declining Birthrate in the U.S.

By James Reston

WASHINGTON. - The birthrate in the United States. according to the government's National Center for Health Statistics, has now dropped to its lowest point in history, and judging by the bare fects all around us, this is not because sex has gone out of style.

The government, which somehow keeps track of these things, tells us, with all of the emotion of the multiplication table, that "the national fertility rate," whatever that means, dropped in 1973 to 1.9 children per family chave you ever tried to raise ninetenths of a little boy), and that there were 3,141,000 hirths or thereabouts last rear, the lowest number since 1945. Also, the of-ficials tell us that if the trend of more sex and fewer bahles goes on like this, the population of the United States will 'level oif" to "zero growth" sometime in "the first half of the 21st

On the whole, this is good news. Already we are producing more people than we can understand or govern, and our mental growth obviously leveled off long ego. Our bodies are running ahead of our minds, and while our record is better than most nations, we cannot quite find enough money, jobs, schools, houses, or trans-portation to keep up with the fertility of our people.

Going Up

So apparently the people have decided to adjust themselves to the government, which is a switch, All the other govern tables are going up-prices, unemployment, interest rates, crime, even rape (which is odd con-sidering the availability of sex). but the population index is going

The interesting thing about this, of course, is not the statistics but the philosophy, not whether this is a good or a bad thing, hut why? Never has any society advertised and glorified ex as much as America and thot so many blanks. George Gallup suggests some of the reasons for the decline in the birthrate, "including the cost of living, particularly the cost of education, widespread use of contraceptives, concern over crowded conditions and overpopulation, more liberal abortion laws, and changing values and lifestyles as reflected by woman's liberation."

He could probably have added to his list: the uncertainty of life in America today, the decline in respect for the authority of the family and the church; the doubt whether the young want to repeat the hard work and the experience of their parents; the widespread acceptance of divorce; the easy satisfaction of sex and entertainment; in short, the increasing freedom and mobility of the young and their hesitation to commit themselves to anyone or anything for life. "Live it up, and

Gallup, when he looked into all this, confirmed the obvious. Producing and raising five or six kids was a bit of a tussle, and eight or nine even on the old farm was unthinkable. Two children, he found, were about right, but only one was a proh-lem both for the parents and the child. All responsibility for the old folks and no help from the other kids.

throw it out."

Harder Question What Gallup's poll did not deal with is the increasing number of couples, married and un-

married, who want no children at all. My favorite family reporter. Russell Baker, has been out at the University of Coloredo. running away from Watergate, and tossing around life with the undergraduates.

He found, if I heard him right, that the topic of sex, married or otherwise, was old stuff. The roung pretended that it was an appetite that could be satisfied es naturally as eating or breathing, which is a lie, but anyway they were much more interested and concerned about the larger problem of commitment to

That is a harder question, even in these days of disbelief, than "Do you take this man?" You cannot divorce your child hut

you can avoid the problem. You can do what you like, free at last to have and to hold until something better turns up. No promises either way. "Who gives this woman? Who takes titls pill?" The trend toward smaller

families and even toward planned spinsterhood has some obvious advantages for society as a whole. eases the nightmare of doubling the population every 40 years and makes the problem of planning end governing life in the current trend. For the young seem to be longing for something to believe in these days, and the family is probably the last refuge they have. On the one hand the argument

is made that this is a rotten and dangerous world, full of wars, crooks, crime, and dope, so why subject one more soul to its brutality? On the other hand, if it is true, as charged, that the preschers are not to be believed, the politicians not to be trusted,

And yet there may be a paredox and society as a whole is a jungle of lies and tricks, then the family, with all its struggles, is still about even better than being liberated into loneliness.

One day the government statisticians may expand their efforts and measure not only the GNP and the population but the growth of happiness. Meanwhile the latest figures are reassuring. If we can't handle the people we've got, why double the prob-

sons behind this fliogic."

East and West of Confusion

By C. L. Sulzberger after World War II. he argues.

CAIRO.—I have had a letter from a Soviet official who asks that I protect him by refraining from descriptive information. He alludes to himself as in opposition to the existing Moscow regime, not from the viewpoint of a Solzhenitsyn hut, as he puts it, from the viewpoint of "free-thinking men who stand for our system but want to make it a really socialistic and Soviet one." In this respect he seems vaguely aligned with Andrei Sakharov, the nuclear physicist, who recently

distributed a statement advocating more political democracy in Russle. The official, who may he called "Comrade X," urges that Western media open their pages to ex-changes of views with Soviet dissidents now that the samizdat or underground press in the U.S.S.F. has virtually been "liquidated," which seems an exaggeration.

Comrade X is puzzled by apparent lack of logic in policymaking by the United States toward the Soviet Union. Just

Abortion Issue The indictment of Dr. Kenneth Edelin of Boston for manslaughter (IHT, April 15) raises once again the issue in the abortion controversy-human life. We happen to know a baby who was born prematurely, at 24 weeks, a year ago, and who just celebrated her first birthday. If the doctor who had delivered that beby had made no efforts to save her, the child's parents would have had every right to bring charges of negligence or even manslaughter against their doctor. But the woman whom Dr. Edelin aborted did not want the child. also 24 weeks old, therefore, I assume. no attempts were made to save him. In one instance the child lived because the parents wanted her, in the other, the child was permitted to die or was killed (we do not know the facts of the case) because the parents did not want him. The pagan Roman practice of parents deciding over the life or death of their child is

with us once again. Furthermore, can no one see the implicit affirmation of the humanity of the fetus in the four other doctors' attempts to develop means via research to prevent intrauterine infections in it? And can no one see the shsurd illogicality of killing one fetus to advance the humanitarian cause of protecting others? Robert Reinhold's article (although not intentionally) affirms throughout the humanity of the fetus, as do, ironically, the actions of the abortionist and researchers. MARTHA HAAS.

Fribourg, Switzerland.

Delegating Power

If Richard Nixon is so concerned about upholding the power of the presidency, why does he constantly delegate it to men who

ROGER MCNAMEE.

I have nowhere seen any explanation for the falls to consummate the gift of his

vice-presidential papers. It isn't as though by waiting past that critical date in July he might have hoped to enhance the value of the contribution. And there was plenty of warning that July 25 might be the effective de after which deductions would not be permitted. So what happened I can think of no other explana tion than extraordinary misman agement by Mr. Nixon's book 2 That raises the question

Observations

On Nixon

And Taxes

By William Buckley Jr.

NEW YORK—I am everywhen informed that Mr. Nixon has

suffered grievously on account of

the tax delinquency. On the other hand—in almost every case—I am being told about other people's indignation. I wonder

whether it is a synthetic indignation: whether, in fact, it is a

matter of everybody knowing how:

everybody else feels, while per-sonally exempt from that same

feeling. What is true is that a

lot of people are taking pleasure

A great deal is to be learned

from what becomes now the sage

of Mr. Nixon's taxes, concern

which a few observations:

from Mr. Nixon's reversals,

whether the so-called back. dating was oftensive to the more What it evidently was was illegal. But illegal only is the purely formal sense. La non-effective. I give you mexample. Suppose you telephone your lawyer on June 1 and say to him: I have decided to will my estate to my daughter. This you leave town for two months On your return, the lawyer brings you your will to sign. How should it be dated? June I, in August 1? I am sure that testamentary experts have an entire answer to this question, very likely different answers in different ferent places. It could make great deal of difference in En. gland, for instance There gift, for example, is taxed at a different rate if turned over less than three years before the donor's death, so that it matters a great deal just when the "constructive" gift was made, Let the lawyers make the decision in the individual case. Suffice to say, meanwhile, that there is every reason to suppose that Mr. Nixon made the constructive gill well before the deadline, and that he is now paying close to a half million dollars extra tax on account of the extravagant in

The whole argument about The whole argument about Nixon having paid fewer taxes than the local plumber is are very good arguments again a public official laying claim papers he accumulated while in public service, and if I had to vote, it would be that said paper are public property. But that is not how they have been treated For at least a generation, preidents have kept their paper. and turned them over, often with tax benefits, to whomever the chose. FDR didn't consult congress about the resting place in his papers, neither did Ecore, Truman, LBJ, the estate of John Kennedy. Accordingly, the future over the Nixon papers is in the nature of a bill of attainer, and I don't like that, and neither should the people; and who knows, maybe they don't maky

efficiency of his stuff.

Though one is helpless on the matter of the little items, one wonders, really, if there are any limits to pettifoggery. If you retain a bookkeeper to keep track of all deductible expenses, that is what the bookkeeper is going to do. And if you donate a bag of saited peanuts to the church it is the bookkeeper's responsibility to figure out that a bag of salted peanuts is worth and to take a deduction which you may not even be aware of To suggest that the man the does this is a Scrooge, scheming to screw the exchequer, is quit simply naive. Now if the deduc tion is for some reason improper that then is disallowed. It is singular vice of the tax system that this is not an open and shut question. It is often a value question: like whether Trick party was really a family affair or really a public affair, or hel and half, or one-quarter in three quarters or whatever Everybody has a chance to are his case with the tax com Except Mr. Nixon, who is in general bind and is losing it freedom of action. Perhaps is true that the fault was his begin with. But the gloating ours, and is unseemly.

Sares in Nei 1835 High Low Last Chiga

By Richard E. Mooney

NEW YORK, April 21 (NYT). -President Nixon, as usual, has made one thing perfectly clear, William Simon is not George Shuitz. But who is? Mr. Shulla is leaving the administrationleaving his post at the Treasury and leaving his even higher post at the White House. Mr. Simon has been nominated to succeed him, but only as secretary of the

Treasury. Mr. Simon is not being chastised. Far from it—he is being promoted. While his brief energy czardom may have been less than a total success in terms of delivering enough gasoline to enough places, it did succeed in galvaniz ing the government apparatus when it was needed. However, Mr. Simon is still a relative newcomer to Washington and apparently bas not moved yet to the

middle of the inner circle. In any case, it was predictable that Mr. Shultz's successor would not inherit the Shultz clout. President Nixon underscored the obvious by having the Simon appointment announced by B second-rank spokesman on a oas was touched off by the First National City Bank's forecast that short-term interest rates would turn downward in the next few months. when Mr. Simon was not even in town.

Low-Grade Slurs

Apart from these low-grade slurs to the importance of the job, though, no one expected that Mr. Simon-or anyone else who comes to mind-would slip into the uniquely powerful and personal role that Mr. Shultz has held in the Nixon government. But the President walked into yet another credibility gap of his own making when be told his spokesman to say that henceforth he, the President, would he

top dog on economic policy.

A president can be top dog of anything he wants to be in his administration. All, or most, presidents have readily assumed

the role in foreign policy. But none, at least none since Frank-lin Roosevelt, has seriously presumed to act with equal force in

Actually, the situation calls for it now. The inflation problem that President Nixon faces at this very moment could turn out to be as serious as the great depression of the Roosevelt years. It needs more attention than it has been getting. But it is doubt-

ful that Mr. Nixon will commit

tinued slow trading.

was 8 3/4 percent,

he will-doubtful on the basis of the administration's already established record of economic policy gone wrong, and doubtful on the historic record of presidents who, in their hearts, are

not at ease in economics. If President Nixon is not going to be the real director of Washington economic policy, then wire will be? The only possible answer right now is that there is a new ball game, and it will be a while

before snyone, including the players, can be sure who has control of the ball.

There have been many "inside" stories from the capital lately about the power struggle between Roy Ash, director of the Office of Management and Budget, and the ascendant Mr. Simon, Thece stories told us that Mr. Ach would probably emerge as No. 1 and so far he has not. Presumably the struggle continues. Meanwhile, there are a number of verities about power in Washington that should be kept in mind. And for this discussion it does not matter whether the chief executive is or is not about to be impeached.

First, because presidents simply do not enter into economic policy as vigorously or naturally as they do into demestle politics and foreign affairs, the man or men at the top of an administratiou's economic policy apparatus normally have an extra quotient of power. Short of a real crisis. the President is not constantly involved.

Second, there is a natural dif-fusion of economic power centers in a government—the chief financial officer (Treasury), the chief monetary officer (Federal Reserve), the chief conomist (Council of Economic Advisers) and the fellow who controls how the oroney is spent (OME). In addition there are, from time to time, ad hoc coars in charge of energy crises, price-wage controls

and other abnormal problems. Eut in this country and in most of the industrial world the Treasury secretary for finance minister) is first among them, In recent experience the only prominent execution to Treasury power has been in West Germany where, for a time in the 1963s, the head of the Bundesbank-

Rabbits Also Can Retire In Florida

TALLAHASSEE, Fla., April 21 'Reuters'.-The Florida State Senate has unanimously voted to prohibit the use of live rabbits in the training of racing greyhounds. Use of live rabbits has been

a controversial isque in Florida

for several months, with the Society for the Prevention of Cruelty to Animals leading a fight against the practice. Dog tracks in America use mechanical rabbits for the races. Last November, a judge in Ocala ordered training farm owners to discontinue the practice, but gave them until Dec. 1, 1974, to comply with the order. The measure approved this week by the State Senate

classifies using live rabbits as a first - degree misdemeanor punishable by a maximum find of \$1,000 and one year in Jail. The bill now goes to the State House of Representatives. where passage is regarded as a certainty.

Given Visa for Israel

MOSCOW, April 21 Reuters -Prof. David Asbel, 63, who spent 16 years in Stalin's labor camps, has been granted permission to emigrate to Israel with his family, Jewish sources say, He reportedly was given permis-

sion to leave the country with his wife, Rachel, and son, Vladunir, and will go as soon as he has collected his documents. Dr. Azbel, a professor of chemistry, earlier was refused permission to emigrate. He staged a two-week hunger strike in protest.

Economic Scene

(Continued From Page 9) the chief monetary officer seemed to matter more than any one else. The reports that Mr Ash wanted the Treasury job this time around would seem to confirm that it is still supreme in Washington.

Thuro, presidents, like other people, delegate their trust to a selected fex, and it haroly matters what the title on the door says. If President Nision felt he could work better with Mr. Shillia than with X. Y or Z. then the argument stops there. Mr. Shultz is No. 1 Pre-Shulta, Mr. Nixon showed preference for Arthur Burns, and now he may be swinging to Mr. Ash. Mr. Burns was the strong man as chairman of the Council of Economic Advisers. Mr. Ash, if he really turns out to be the next steone man, would be coming at it from yet another direction. There will be, of course, a very

practical and real difference when Mr. Shultz leaves. The super-job that he holds as assistant to the President will disappear with him. His While House office and his commanding White House authority will be wiped from the board. Someone will till the role, however, whether there is a new title or not because the role is natural and essential as the Ultimate reconciler of issues and pressures that feed finally · 10to policy.

BOOKS

ALFRED STIEGLITZ

An American Seer By Dorothy Norman. An Aperture Book. Illustrated. Random House. 254 pp. \$35.

CAMERA WORK

A Critical Anthology

Edited by Jonathan Green. Illustrated. Aperture. \$30.

called "America and Alfred Harold Clurman Stieglitz," wrote: "In view of his greatness as an artist, and his importance as a cultural force, comparatively little has been written about Al-fred Stieglitz." Forty years later, alas, there is little reason to re-vise this observation. Stieglitz remains today what he was in his own lifetime — enigmatic, immense, but unknown to all but a small circle of devotees, an artist whose achievement has not been fully charted and a man wbose energetic earthly existence has been blurred by a general ten-dency to indulge in spiritual

euphemisms. The tone of abject piety was set early on by Stleglitz's first circle of grateful admirers—it was clearly a tone Stieglitz invitand it has continued without significant modification to domi-nate all discussions of the man and his work. Inevitably, it is a tone that has lost its credibility with the passage of time. What is needed is a critical approach that places Stieglitz firmly in history, where money, material circumstance, inherited culture, the pressures of taste and ap petite and other biographical parameters all conspire to determine the boundaries of both art and life. Yet this is precisely what has been denied us.

There can be no question that Dorothy Norman, in her new book on Stieglitz, writes as a disciple totally committed to all the pieties I have described.

Once launched on the story of Stieglitz's life, however, Mrs. Norman gives us a very readable text. The atmosphere of worship is never absent, but it is obliged to accommodate itself to a good deal of concrete documentation. The result is not a definitive biography, but the most comprehensive account of Stieglitz's.

life we have yet been given, In 1926, when Mrs. Norman first met Stieglitz, he was 62. He had been born into a prosperous and cultivated German - Jewish family in Hoboken, N. J. spent his boyhood in Manhattan and Lake George, and, from the age

By the time he returned to New York in 1890, photography had become his vocation, obses-

It was Stieglitz's great achieve. ment, both as a photographer and as a propagandist for the aesthetics of photography, to alter the terms by which the medium was understood and experienced. It was Stieglitz, more than any other single figure, who established photography as a branch of high art in this coun-

No less important, however, were his activities as an art dealer and as a publisher. Stieglitz was the first of our dealer-priests, not only introducing the major modern artists of Europe and America to New York for the first time-he first showed Matisse, for example, in 1908, five years before the Armory Showbut conferring on their difficult art a sense of spiritual necessity that placed it beyond the reach of petty. Philistine objections. In his publications, he did

mething similar—primarily for photography, but also for liter-ature and the other visual arts. Camera Work, which Stleglitz edited and published from 1903 to 1917, was one of his greatest achievements - a beautifully designed and lavishly produced illustrated journal that, unfortunately, has had no successors in this age of cultural explosion and massive foundation grants.

The volume called "Camera A Critical Anthology, Work: which Jonathan Green has now assembled from the files of this great magazine, is exemplary in every respect. His introductory essay and his lengthy notes, together with his painstaking indexes and other editorial apparaof this sort should be-a perfect guide not only to a crucial publication but to a career and a period. The literary contributors include Bernard Shaw (as a critic of photography and the visual arts), Arthur Symons, Gertrude Stein (whose work Stieglitz was the first to publish anywhere) and a roster of American critics (Benjamin De Casseres. Sadakichi Hartmano and Charles H. Caffin. among others) who are only just now being re-discovered. The plates embrace most of the photographers and many of the painters and sculptors whose work we still regard as the most important of their time.

The New York Times. This review has been abridged.

Walter Browne scored the most impressive success of his career in capturing first prize at the traditional Wijk aan Zee International Tournament. His consistently strong play in the last year has brought him a rating of 2612 points on the Elo scale, for a fourth-place ranking among American grandmasters (behind Bobby Lubomir Kavalek Fischer,

and me). Browne had an easy time Browne had an easy time of it at Wijk aan Zee, leading all the way and suffering his only loss in the last round against Andras Adorian in a game that had no bearing on the final result. A comfortable 1½ points separated Browne from Jan Hein Donner of the Netherlands, who took a solid seclands, who took a solid second prize undefeated. Third, fourth and fifth

prizes pretty much followed the form chart in going to West Germany's steady Hans-Joachim Recht, and two Yugoslavs, the pugna-

cious Milan Matulovic and wild West' Albin Planinc. Most prominent among the underachievers were the two new grandmasters, Miguel Quinteros of Argentina (tied for ninth) and Adorjan, of Hungary (tied for twelfth). For the first time in many

years, the Soviet Union sent no entrants, presumably be-cause their top players were competing in the quarter-

By Robert Byrne final candidates' matches and they did not care to risk

their second line. A fine example of Browne's excellent form in the event is given by his precisely played victory over

Spain's Arturo Pomar. It remains a question in this line of the English Opening whether White should play P-Q4 as early as the seventh move; especially after the exchange of knights

on moves 8 and 9, the Black game can hardly be termed

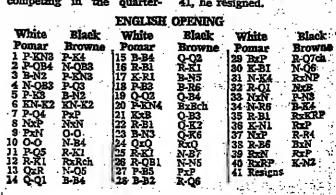

on moves 8 and 9, the Black game can hardly be termed cramped by the White QP.

In fact, Browne quickly obtained dynamic play with 10 . . N-B4, 13 . . N-Q5 and 14 . . . B-B4!, preparing to counter 15 P-KN4 by 15 . . . B-B7!; 16 Q-Q2, Q-K2, since 17 P-N3? would have been flattened by 17 BxP! Neither would 15 B-K3, N-B7; 16 R-B1. NxB have been inviting for White.

The king file fell into Browne's hands after 16 . . . R-K1 and 22 . . Q-K2, while Pomar's challenge 25 R-K1 was repulsed by 25 . N-B7! Since 27 P-QR3, BxN; 28 RxB, RxR; 29 PxR, N-B7 would have landed Pomar in a pawndown ending, he strove desperately to break out with 27 P-B5, but after Browne's 29 . . R-Q7ch and 30 . . N-Q6, White fell into deeper trouble than ever. Although Pomar avoided the loss of a piece by means of 31 N-K4, he could not prevent Browne's rook from having a field day on the seventh rank cleaning out

having a field day on the seventh rank, cleaning out the last pawn there with 36 ... RxP.

All that that remained for Browne was to defang the white QP with 38. BXN and 39. RXP. Because and 39 ... RxP. Because Pomar did not believe in the miracle he would bave needed to save his twopawns-down ending at move 41, he resigned.

Soviet Union Again Takes Hockey Title

mrtSiNKI. April 21 (Reuters).
_The Soviet Union, defending world champion, successfully remiled its the hockey title here yesterday by beating Sweden. 3-1, on the final day of play. For the Soviet Union, it was their 13th World and 16th Eur >pean crown, but this year's tournament was overshadowed by doping scandals, poor refereeing rough play and international in-

The red-shirted Soviet squad was a clear favorite from the beginning of the championships but archival Czechostovakia which lost the world title to the Russians in Moscow last year-tyset the Soviet team, 7-2, in their first encounter of the 16gay tournament last week.

But the Czechoslovaks, who are never as consistently good as the soviet team, suddenly lost to Finland two days later—then had the defeat converted to a victory then the Finnish goalkeeper falled a drugtest.

Though tied on points, the czechoslovaks maintained the tournament lead on goals until fuesday of this week, when the Soviet Union passed them with a 17-0 triumph against the Poles. On Thursday, the Soviet Union virtually clinched its crown when it defeated Czechoslavakia 5-1, with some of the roughest play in the tournament.

Banny Abearne, president of the International Ice Hockey Pederation, said after the game mat it was difficult to undergood why the Soviet team, the bet in the world, should have to per rough tactics on the ice. The outside possibility of Swehen beating the Soviet Union on the fina! day, provided the freshs defeated Finland, left the

rold championships unresolved util the end. However, the Czecbs were baten again, 5-4, by the bome ban Pinland, in a close and and the fredes, playing their best game r the tournament, also failed to trak the Soviet team.

The silver medal for 1974 went to the Czechs, bronze to Sweden, rith Finland fourth, Poland fifth and East Germany—which will to the B group next year-in

Next year's world championthips will be m Munich, where the United States will re-enter the A group after winning the B troup tournament this year.

More Sports News On Page 11

Observer Turn Off the Sports

By Russell Baker

NEW YORK.—In early March major leagues and a comparable thing important had changed. I sional football. If you applied had stopped being a sports fan. News that the baseball teams were in spring training added no salt to life's daily routine (Nixon, taxes, bills and toil).

The formation of yet another

professional football league and the resulting stampede of players for more million-dollar salaries seemed drab stuff that one had to tolerate on the 11 p.m. news get to the weather report, and the news that

heavyyweight bad flattened another somewhere in the tropics for the world championship passed over me so quietly that I did not even catch the champion"s name.

Henry Aaron's home run that beat Babe Ruth's record was, I could still agree, a splendid thing, but my appreciation of it was purely intellectual.

I had simply had it with sports. I think the explanation is that there was just too much of ita new game of the century every other day. Like having a banana split with every meal, it just quit heing fun.

The proliferation of teams was confusing, too. At one time 16 baseball teams made up the

616-Carat Diamond Found in S. Africa

JOHANNESBURG, April 21 UPI1.—A miner has found the world's minth largest diamond, the biggest found at Kimberley Mines since 1896, a spokesman for the De Beers mining group announced.

The official put no price on the stone, a vellow octahedron welghing 616 carats, pulled out from the crusher section of the Dutoitspan Mine, Kimberley, He said that it has "several flaws." In 1896 a stone weighing 513

carats was picked up at Kimberley. The world's largest, the Cullinan diamond of 3,025 carats, was spotted glittering in the side of open workings at the Premier mine near Pretoria in 1905.

Vienna Garden Show

VIENNA, April 21 'UPII.-The Vienna International Garden Show opened last week with 23 nations displaying flowers, plants and trees. The Garden of Nations, once a garbage dump, is the main feature of the show. The garden contains 10 million flowers and 120,000 trees from four continents. More than four willion people are empected to and Friday's games of the century attend the show which ends are too much for one afternoon. Oct. 14.

I became aware that some- number of teams played profesyourself, you could keep them all in your head. Not any more.

Nowadays, each sport has so many leagues and teams that they are broken down into "diviwith divisional playoffs, and league playoffs, and championship playoffs constantly in progress. Teams with names like the Pistons and the Whaters and the Bolts and the Nets and the Raccoons are forever looming in-

to one's consciousness.
Somebody has calculated that there were 105 professional sports teams playing games in the United States and Canada as of last winter, and new international football and baseball leagues will add another 20 or 30 teams to the stew in the next few years. It is easier to keep

track of Middle East politics. Sports has come to seem like an industrial boom. The greed of players and owners who move themselves and their teams from city to city in quest of more and more bucks make it increasingly silly to cultivate the homechauvinism on which the sports fan thrives.

How can you give your heart to B home-team here who may skip to Chicago next year for a million-dollar salary? Or feel affection for a team that may be shifted to El Paso next season?

Sports, after all, are only games that children can play, yet how is the childish joynusness of the games to be reconciled with the knowledge that the player you yearn to idolize is a big businessman drawing 2 \$300,000 salary and prohably entertaining a \$500,-000 offer to go over to the enemy? Baseball's racism, which everybody has been willing to forgo mentioning at one time, seems squalidly obvious now that the club owners with their franchise shifting have demonstrated that their contempt for the home-town fans is as solid as their distacte for black hands in the manage

And then, of course, the athletes themselves make it barder and harder for fans to endow them with the stuff of heroism. Boxing has become a clown show. Basehali piayers strike for hetter working conditions, like the average working stiff.

The constant court battles are also depressing. Watergate is more fun.

Mostly, though, it was the excess that dulled my edge. A demolition derby, a golf tournament, a motorcycle jumping contest, championship figure-skating competition, a championship boxing match, the crucial game of the NBA divisional playoffs, the climactic game of the Stanley Cup series, the setting of a new pole-vault record, the rubber game of the Orloles-Tigers series and reruns of last Wednesday's

James Bond's creator, the late Ian Fleming,

admitted that one of the models for his fictional hero was 'Tricycle' - but who

was 'Tricycle'?

Double-Spy 'Tricycle' Put Spoke in Nazis' Wheel

By Herbert R. Lottman

DARIS (IHT).—A real-life James Bond is alive and living in the south of France. Some years ago. Bond's creator, the late Ian Fleming, admitted that one of the models for his fictional hero was Tricycle," scion of a wealthy family in prewar Yugoslavia, who combined spying with woman-chasing. "Tricycle" was encouraged in his playboy role by the men behind the scenes at MI-5. Britain's counterespionage service. But who was "Tricycle"? Dusko Popov, a naturalized British subject, revealed his identity in his autohiography, "Spy/Counterspy", which will be published in New York this month.
Now 61, holder of the Order of the Brit-

ish Empire, he is not quite retired from British Intelligence hecause, he says, Officers are never demobilized—only put on leave." Mr. Popov is not fond of being compared to James Bond. "Actually." he explains, 'I find him quite stupid." If Bond was a frequent victim of his own insouciance, the man who, as "Tricycle," was described by his hoss. Sir John Masterman. as "one of the chief figures of the double-cross world" has not acted stupidly. When he found an attractive Swedish blonde, he married her, and now they live with their three sons, 10, 6, and 4, on a hillside above Cannes, in a bouse that once was the sum-

mer residence of the bishops of Grasse. Sir John fought a long battle with the British government for permission to pub-lish his own account of how MI-5's Committee XX ("Double-Cross") succeeded in making double agents of all the German spies sent to Britain during World War II. His book called "The Double-Cross System in the War of 1939 to 1945," was written immediately after the war. It was printed by Britain's security services in 100 copies. 75 of which were destroyed. The others were put in a safe.

Forcing a Hand

Sir John had to wait until he was 80 years old, in 1972, before Yale University Press decided to go ahead with publication and thus force the band of the British government. The gambit succeeded, but the decision to clear the story had to be made at top levels by the then Foreign Secretary. Sir Alec Douglas-Home, and Home Secretary Reginald Maudling, "Until Sir John's book was published f was bound by the Official Secrets Act." Mr. Popov says. He kept silent even when front-page newspaper stories cited Sir John's revelation that "Tricycle" had provided an earlybut unheeded-warning of the Japanese

attack on Pearl Harbor. In his book, Mr. Popov describes his recruitment into German military intelligence by an old friend-Mr. Popov had completed his university and law studies in prewar Germany-although his first loyalty was to the British, Most of the heroes of World War II espionage appear in Mr.

Popov's story, including the famous "C," head of MI-6, Britain's foreign-intelligence corps. He has since been identified as Sir Stewart Menzies, who asked Mr. Popov to be godfather to his first son. On one or another of his 14 trips to neutral Portugal, "Tricycle" met MI-6's Iberian desk chief, Kim Philby, who later was to defect to Moscow. He never actually encountered Philby's deputy, Graham Greene, although Mr. Greene recently wrote this himb; "Mr. Popov, who as 'Tricycle' was the most important and successful double agent working for the British during the war. has written a book which deserves to become a classic of espionage.

And "Tricycle" also had a nodding acquaintanceship with a young naval intelligence officer named Ian Fleming. night, I was gambling for high stakes in the casino at Estorii-although actually I was only hluffing," Mr. Popov recalls. saw that Fleming was standing just behind me. Was be checking on the money-I had gotten it from the Germans or me? In any case, I threw the bundle on the table-it was only to force someone I client like to stop playing. Fleming's face got pale, but then he smiled. He put the scene into 'Casino Royale.'" Popov's origins allowed him to play the money game convincingly. At one time, he actually got his German spymasters to use him to channel funds to their other agents in Britain.

Things I Like to Do

"But my playboy days ended when the war was over," he says. "They gave me the OBE, twn civilian suits and said goodbye. I decided to go into business in the United States, but I found that I didn't like making money for its own sake. So I returned to Europe, where I thought that I'd combine business with travel to interesting places and doing things I like to do." Mr. Popov is now an international consultant on financial and legal problems but his tan indicates that he hasn't allowed work to interfere too heavily with life beside the swimming pool hidden by 100 acres of olive trees. In addition to the large house, with its panoramic view over the Provençal countryside, the Popovs have an apartment in a new mountain resort above Nice. In prewar Dubrovnik, where his grandfather was a banker and his father a factory nwner, Mr. Popov learned the habit of living well.

If he looks the way a retired Fleming hero ought to look, in the three-piece tweed suit, striped shirt and polka-dot tie that he donned for a one-day visit to Paris, he might also resemble a successful "Cicero"—if the valet-spy in the British Em-bassy in Ankara hadn't been paid off by the Nazis in counterfeit money, as moviegoers may remember happened to James Mason in the film version of that episode, "Five Fingers."

Duske Papov during World War II. ... on leave from MI-5.

In fact, Mr. Popov was in on the "Cicero" affair, having provided a tip which pointed to the Ankara embassy leak. He was also involved in "Operation Mincemeat," in which the British outfitted a corpse as one of their officers, complete with secret documents. Their intent was to deceive the Germans on the precise location of the Allied attack on Southern Eu-rope. The film of "The Man Who Never Was" dramatized that episode.

When he received the OBE, his MI-5 colleagues toested Mr. Popov as "the man who blocked seven divisions" by misleading the Germans. "Actually," he notes, "to be accurate, it was 15 divisions."

Pearl Harbor Tip

Of more interest to Americans, Mr. Popov vas sent to the United States by the Nazis with MI-6 encouragement, armed with a questionnaire reduced to microdots. Apparently, this was the first example of the technique (which reduced messages to the size of the periods on a typewriter) to fall into Allied hands. The information that the Nazis wanted pointed to a Japanese attack on Pearl Harbor, Instead of alerting the U.S. Navy, FBI chief J. Edgar Hoover withheld the tip, something Mr. Popov feels that the British services, despite all their traditional rivalry, would not have done.

Will life ever be the same again for "Tricycle"? Until a relatively short time ago, even his code name was a secret U.S. publication of "Spy/Counterspy" Grosset & Dunlap will be the world's introduction to the man behind the name, Other editions will follow, in London, Paris, Milan and Yugoslavia, Although his family's interests were taken over by the Tito regime, Mr. Popov has been to Yugoslavia to visit his father, and the revelation of his wartime activity is making him a celebrity there, too. .

Germany? No German publisher has expressed firm interest in Mr. Popov's story. In fact, he thinks, most Germans who believed that "Tricycle" was their man in London and Lisbon still do not know the truth.

Queen's 48th Birthday PEOPLE: Quieter Than Usual

Queen Elizabeth II celebrated her 48th birthday yesterday but the traditional 62-gun salute from the Tower of London and the 41-gun salute from Hyde Park were postponed because it was Sunday. They will be fired today. She spent the day quietly at Windsor Castle, 20 miles west of London. Prince Philip and their two youngest children, Prince Andrew, 14, and Prince Edward, 10. were with her at the castle.

American sports commentator Howard Cosell, 53, says he is thinking about running for the U.S. Senate in 1976 "to do something more meaningful with my hife." Cosell, a Democrat, says he would oppose Sen. James Buckley, the Conservative-Repub-lican of New York, if he decides to make the race. "I'm dissatis-fied with conditions that exist in government today and I want to try to do something about it," he said. "Sen. Buckley is not my breed of cat as a public servant... I think he's been an anonymous senator except for his statement calling for the resignation of President Nixon," Cosell, author of the best-selling book about himself, "Cosell," will make his decision by next year.

Thousands were expected, but only about 100 persons turned out at Atlanta's airport Friday to catch a glimpse of former Be drummer Ringo Starr, in town for an advance showing of his rock horrer film, "Son of Dra-cula." In the movie, Starr, 34, portrays Merlin the Magician.

The Choctaw Kid has revisited Alcatraz and found things B lot nicer than when he was a prisoner at "The Rock." Claren Carnes is now 47, the sole survivor of the six men who staged a bloody uprising on May 2, 1946, to escape Alcatraz. The abortive attempt at the old federal prison left three convicts and two guards dead. "It's pleasant coming back bere as a free man," Carnes said Friday, sitting in his old, dungeon-

Carnes was only 18 when he was transferred to Alcatras from the federal prison at Leavenworth, Kan. He was under a life term for robbery and murder in Oklahome and a 99-year federal term for kidnapping. After serving his 16 years at Alcatras, Carnes was returned to Leavenworth, Paroled last Christmas, he now lives with B sister in Kansas City.

Rep. Mario Biaggi, a New York Democrat, was named Friday in B paternity suit filed by a former campaign worker who claimed he fathered her 3-month-old daughter. Biaggi called it "an outrageous lie." The suit was filed by Bonnye Hearne, 35 whose daughter, Jessica, was born last January. Biaggi, appearing at family court

in Manhattan, told newsmen:
"It's a ridiculous charge... I was never alone during the campaign. I was in the company of the press all the time. This is

posed to. I'm confident or outcome. But I'm concerned the effect on my wife and fame Miss Hearne worked as a sec tary during Biaggi's unsuccess race for the Democratic man nation for mayor of New Y last year. "I'm shocked us Mario has denied paternity: a said, adding. "All I want is Ma to acknowledge that he b father and have his name and the on the birth certificate.".

Minnesota Fats, the king pool bustiers whose real name Rudolph Wanderone, was in a ous condition after undergo Ill. Wanderone, 57, had an plained of abdominal pains sun this year, but doctors would a disclose his ailment, saying o that he will be in the honi for some time. He gained tional recognition in a mon "The Hustler," based on he has Jackie Gleason played him in t film. Since then be has me international tours, taking on comers if the money was re-

Joining the ranks of the not jurists Charles Evans Argu-and Harlan Fiske Stone, Jaco Solomon, the estate lawyer i a professorial chair named him this week at the Columb University School of Law in Ne York The chair, the Joseph Somon professorship in will trusts and estates, was made pos sible by Solomon's hiends, the contributed more than \$5000 toward its establishment

The Solomon chair is probable the first the university has ex-named, for someone who no finished grade school, let also college, One of eight children a poor Russian immigrant fas ly, Solomon worked at one per as a \$10-a-week errand by a Wall Street firm, letter to b come Lehman, Rohrlich, Son & Heffner, of which he is a a senior partner. He reed while working and passed bar qualifying exams be spending three years as a ne student at New York Law 8th

ANNOUNCEMENTS

In sports, more is less.

INFLATION WILL GET WORSE

Are you helplessly watering the purchaing power of your savings urfindle with no apparent solution to from it? Over the thought of inflation getting attit worse make you sleaf? You are bound to get sick from but there is always a solution the capital we manage has alwors grown steadily, well protected and at a rate of growlb in exects of the troe inflation (figures released by governments are for ho)-scoutf. If our predictions materialize, a very important door will close soon blocking an erseetial protection against devaluation of capital to those who thought of it loo late. The amount of capital we wish to bandle is limited and we reserve our replies only for sincere loquiries from individuals we consider a suitable chemis.

All inquiries in absolute confidence to: Box 22-115033 to PUBLICITAS.

CH-1002, LAUSANNE.

SUBSCRIPTIONS to the Laternational Herald Tribune are now more at-tractive than ever, with taxiniz-ote: newsstand price of up to 50°, Contact one of the offices littled above, or send your name and ad-dress to: Bot 322, Herald Tribune Paris
